THE TRUSTEES UNANIMOUSLY RECOMMEND THAT MINORITY UNITHOLDERS VOTE FOR THE PROPOSED TRANSACTION AS SET OUT IN THE MANAGEMENT INFORMATION CIRCULAR. THE TRUSTEES ARE NOT MAKING ANY RECOMMENDATION TO DEBENTUREHOLDERS REGARDING HOW TO VOTE THEIR DEBENTURES.

August 22, 2008
Dear Unitholders and Debentureholders:

Clearwater Seafoods Income Fund (the “Fund”) and CS Acquisition Limited Partnership (“Acquisition LP”), a limited partnership controlled by a consortium led by Clearwater Fine Foods Inc., have agreed, pursuant to the terms of a transaction agreement dated August 14, 2008, to undertake a transaction whereby Acquisition LP will acquire the Fund’s indirect interest in Clearwater Seafoods Limited Partnership (“Clearwater”), which holds the Fund’s operating business, through a direct investment by Acquisition LP in Clearwater, following which the Fund will:

(i) redeem all of the outstanding trust units of the Fund other than 10,669,307 trust units beneficially owned by members of the purchaser consortium for a cash redemption price of $4.50 per trust unit; and

(ii) redeem all of the outstanding 7.00% Convertible Unsecured Subordinated Debentures due 2010 of the Fund and the Series 2007 7.25% Convertible Unsecured Subordinated Debentures due 2014 of the Fund for a cash redemption price of 101% of the principal amount of each debenture plus accrued and unpaid interest to but excluding the closing date for the proposed transaction.

In order for the proposed transaction to be completed, the holders of the Fund’s trust units and special trust units must pass a special resolution approving the proposed transaction and certain amendments to the Fund’s declaration of trust and certain other material documents relating to the Fund and/or to which the Fund is a party to, among other things, provide for the redemption of the trust units described above. In addition, completion of the proposed transaction is conditional upon the holders of each series of debentures, voting separately as a series, passing an extraordinary resolution approving certain amendments to the indenture governing the debentures, which will provide for the redemption of all of the outstanding debentures. The redemption of the trust units and the debentures described above will occur upon the closing of the proposed transaction, which is currently anticipated to occur in early October, 2008.

The Fund will hold a special meeting of unitholders and a serial meeting of debentureholders at the location and times set forth in the accompanying notices of meeting in order to pass the special resolution of unitholders and the extraordinary resolution of debentureholders, respectively. The notices of meeting and the accompanying management information circular of the Fund set forth information about: (i) the process that culminated in the Fund’s agreement to enter into the proposed transaction with Acquisition LP; (ii) the terms of the proposed transaction; (iii) the meeting of unitholders; and (iv) the meeting of debentureholders.

As described in greater detail in the Fund’s information circular, the board of trustees of the Fund, after consultation with its outside legal advisors and upon receiving the formal valuation and fairness opinion of BMO Capital Markets, has unanimously determined that the consideration of $4.50 per trust unit to be received by the “minority unitholders” (as defined in the accompanying management information circular) pursuant to the proposed transaction is fair, from a financial point of view, to the minority unitholders, and that the proposed transaction is in the best interests of the minority unitholders, and has unanimously approved the transaction agreement. The board of trustees of the Fund unanimously recommends that minority unitholders vote FOR the special resolution of unitholders described above, the full text of which is set out in the accompanying management information circular. Neither the Fund nor the board of trustees is making any recommendation to debentureholders regarding how to vote their debentures on the extraordinary resolution of debentureholders described above, the full text of which is set out in the accompanying management information circular.

The price of $4.50 per trust unit to be received by the minority unitholders pursuant to the proposed transaction is at the upper end of the $3.80 to $4.60 fair market value range determined by BMO Capital Markets in its formal valuation and represents a premium of approximately 32% over the volume weighted average trading price of $3.42 for the trust units on the Toronto Stock Exchange during the period of 20 trading days ended on August 13, 2008, the last trading day immediately prior to the announcement of the proposed transaction. BMO Capital Markets has also provided a fairness opinion to
the board of trustees, each of whom was determined to be an “independent director” for the purposes of MI 61-101 (as defined in the accompanying management information circular), that the consideration of $4.50 per trust unit to be received by the minority unitholders pursuant to the proposed transaction is fair, from a financial point of view, to the minority unitholders.

We encourage you to read the materials in the accompanying information circular carefully. Your vote is important. Whether or not you attend the meeting of unitholders or the meeting of debentureholders, as applicable, please take the time to vote your units and debentures, as applicable, in accordance with the instructions contained in the accompanying management information circular.

If you are in doubt as to what decision to make, please contact your financial, legal or other professional advisors. If you have any questions or require more information with regard to voting your units or debentures, as applicable, please contact Computershare, the transfer agent for the units and the trustee for the debentures, using the information provided on the back cover.

Thank you.

NOTICE IS HEREBY GIVEN that a special meeting (the “Unitholder Meeting”) of the holders (the “Unitholders”) of trust units (the “Trust Units”) and the special trust units (“Special Trust Units” and, together with the Trust Units, the “Units”) of Clearwater Seafoods Income Fund (the “Fund”) will be held at 10:30 a.m. (Halifax time) on September 22, 2008, at the Marriott Harbourfront Hotel, Acadia C, 1919 Upper Water Street, Halifax, Nova Scotia, for the following purposes:

1. to consider and, if deemed appropriate, to adopt, with or without amendment, the special resolution (the “Unitholder Resolution”) in the form annexed as Appendix “A” to the management information circular (the “Circular”) accompanying this notice, approving: (i) the transactions (the “Proposed Transaction”) contemplated by a transaction agreement dated August 14, 2008 (the “Transaction Agreement”) between the Fund and CS Acquisition Limited Partnership (“Acquisition LP”), a limited partnership controlled by a consortium (the “Purchaser Consortium”) led by Clearwater Fine Foods Inc. (“CFFI”), pursuant to which Acquisition LP will acquire the Fund’s indirect interest in Clearwater Seafoods Limited Partnership and (ii) certain amendments to the Fund’s amended and restated declaration of trust dated July 31, 2002, as amended (the “Declaration of Trust”) and the Fund Material Documents (as defined in the Circular), to, among other things, provide for the redemption of all of the outstanding Trust Units, other than 10,669,307 of the 11,609,740 Trust Units beneficially owned by members of the Purchaser Consortium, on the Closing Date (each as defined in the Circular) for cash consideration equal to $4.50 per Trust Unit; and

2. to transact such other business as may properly come before the Unitholder Meeting or any adjournment thereof.

Accompanying this notice are: (1) a letter to Unitholders and Debentureholders (as defined in the Circular); (2) the Circular; and (3) a form of proxy or voting instruction form for the Unitholder Meeting. The Circular, which provides additional information relating to the matters to be considered at the Unitholder Meeting, forms part of this notice.

The Unitholder Resolution, if passed at the Unitholder Meeting or any adjournment thereof in accordance with the provisions of the Declaration of Trust, will be binding upon all Unitholders, whether present or absent from the Unitholder Meeting. Accordingly, it is important that your Units be represented and voted whether or not you plan to attend the Unitholder Meeting in person. The board of trustees of the Fund (the “Trustees”), each of whom was determined to be an “independent director” for the purposes of MI 61-101 (as defined in the Circular), have established the record date for the Unitholder Meeting as the close of business on August 22, 2008 (the “Record Date”). Only Unitholders of record at the close of business on the Record Date will be entitled to notice of the Unitholder Meeting or any adjournment thereof, and to vote at the Unitholder Meeting. No Unitholder becoming a Unitholder of record after the Record Date will be entitled to vote at the Unitholder Meeting or any adjournment thereof.

The Trustees, after consultation with their outside legal advisors and upon receiving the formal valuation and fairness opinion provided by BMO Capital Markets, have unanimously determined that the consideration of $4.50 per Trust Unit to be received by the Minority Unitholders (as defined in the Circular) pursuant to the Proposed Transaction is fair, from a financial point of view, to the Minority Unitholders, and that the Proposed Transaction is in the best interests of the Minority Unitholders. THE TRUSTEES UNANIMOUSLY RECOMMEND THAT MINORITY UNITHOLDERS VOTE FOR THE UNITHOLDER RESOLUTION AS SET FORTH IN THE CIRCULAR.
The Trust Units and Special Trust Units have been issued in the form of global certificates registered in the name of CDS & Co. and CFFI, respectively, and, as such, CDS & Co. and CFFI are the sole registered Unitholders. This Circular is furnished in connection with the solicitation of proxies or voting instructions by and on behalf of the management of Clearwater Seafoods Income Fund (the “Fund”). The accompanying form of proxy or voting instruction form is for use at the Unitholder Meeting or the Debentureholder Meeting, as applicable, and at any adjournment or postponement of such meetings, and for the purposes set forth in the accompanying notice of Unitholder Meeting and notice of Debentureholder Meeting, respectively. A glossary of certain terms used in this Circular can be found in “Glossary of Terms” in this Circular.

NOTICE TO UNITHOLDERS AND DEBENTUREHOLDERS IN THE UNITED STATES

The Fund is an unincorporated open-ended limited purpose trust established under the laws of the Province of Ontario, Canada. The solicitation of proxies and the Proposed Transaction described in this Circular involve securities of a Canadian issuer and are being effected in accordance with Canadian securities laws, the Declaration of Trust and the Debenture Trust Indenture. The proxy rules under the United States Securities Exchange Act of 1934, as amended, are not applicable to the Fund or this solicitation; accordingly, this solicitation is not being effected in accordance with such U.S. securities laws. Unitholders and Debentureholders should be aware that the requirements under Canadian laws may differ from requirements under United States corporate and securities laws relating to United States entities.

The enforcement by investors of civil liabilities under U.S. federal securities laws may be affected adversely by the fact that the Fund is formed under the laws of the Province of Ontario, that a majority of its trustees are residents of Canada and that a substantial portion of its assets may be located outside the United States. You may not be able to sue the Fund or its trustees in a Canadian court for violations of U.S. securities laws. It may be difficult to compel the Fund to subject itself to a judgment of a U.S. court.

THE PROPOSED TRANSACTION HAS NOT BEEN APPROVED OR DISAPPROVED BY ANY SECURITIES REGULATORY AUTHORITY, NOR HAS ANY SECURITIES REGULATORY AUTHORITY PASSED UPON THE FAIRNESS OR MERITS OF THE PROPOSED TRANSACTION OR UPON THE ACCURACY OR ADEQUACY OF THE INFORMATION CONTAINED IN THIS DOCUMENT. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENCE.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

Certain statements included herein constitute “forward-looking statements”. All statements included in this Circular that address future events, conditions or results of operations, including in respect of the Proposed Transaction, are forward-looking statements. These forward-looking statements can be identified by the use of forward-looking words such as “may”, “should”, “will”, “could”, “expect”, “intend”, “plan”, “estimate”, “anticipate”, “believe”, “future” or “continue” or the negative forms thereof or similar variations. These forward-looking statements are based on certain assumptions and analyses made by management in light of their experiences and their perception of historical trends, current conditions and expected future developments, as well as other factors they believe are appropriate in the circumstances. Unitholders and Debentureholders are cautioned not to put undue reliance on such forward-looking statements, which are not a guarantee of performance and are subject to a number of risks and uncertainties, including, without limitation, those set forth under the heading “Risk Factors” in this Circular. Many of those risks and uncertainties are outside the control of the Fund and could cause actual results to differ materially from those expressed or implied by such forward-looking statements. In making such forward-looking statements, management has relied upon a number of material factors and assumptions, including with respect to total allowable catch levels, selling prices, weather, fuel and other input costs, general economic and financial conditions, interest rates, exchange rates, equity markets, business competition, changes in government regulations or in tax laws, acts and omissions of third parties and the ability of the Fund to complete the Proposed Transaction. Such forward-looking statements should, therefore, be construed in light of such factors and assumptions. All forward-looking
statements are expressly qualified in their entirety by the cautionary statements set forth above. The Fund is under no obligation, and expressly disclaims any intention or obligation, to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by applicable law.

INFORMATION CONTAINED IN THIS CIRCULAR

Unitholders and Debentureholders should not construe the contents of this Circular as legal, tax or financial advice and should consult with their own professional advisors as to the relevant legal, tax, financial or other matters in connection herewith.

**Q:** What is the recommendation of the Trustees?

**A:** The Trustees, after consultation with their outside legal advisors and upon receiving the Valuation and Fairness Opinion from BMO Capital Markets and considering the factors described under “Review and Approval of the Proposed Transaction – Reasons for the Trustees’ Recommendation”, have unanimously determined that the Unit Redemption Price to be received by the Minority Unitholders pursuant to the Proposed Transaction is fair, from a financial point of view, to the Minority Unitholders, and that the Proposed Transaction is in the best interests of the Minority Unitholders. The Trustees unanimously approved the Transaction Agreement and the Proposed Transaction and authorized the Fund to enter into the Transaction Agreement. The Trustees unanimously recommend that Minority Unitholders vote FOR the Unitholder Resolution.
Q: Why are the Trustees making this recommendation?
A: In reaching their conclusion that the Unit Redemption Price to be received by Minority Unitholders pursuant to the Proposed Transaction is fair, from a financial point of view, to the Minority Unitholders and that the Proposed Transaction is in the best interests of the Fund, the Trustees considered and relied upon a number of factors, including those described under the headings “Review and Approval of the Proposed Transaction — Recommendation of the Trustees” and “Review and Approval of the Proposed Transaction — BMO Capital Markets’ Valuation and Fairness Opinion”.

Q: When and where is the Unitholder Meeting and Debentureholder Meeting?

Q: Who is soliciting my proxy?
A: Unitholders’ and Debentureholders’ proxies are being solicited by or on behalf of management of the Fund. This Circular is furnished in connection with that solicitation. In addition Acquisition LP may in certain circumstances, at its own expense, directly or by engaging a soliciting dealer, actively solicit proxies in favour of the Unitholder Approval and Debentureholder Approval on behalf of Management of the Fund. It is expected that the solicitation will be made primarily by mail, but proxies may also be solicited personally by representatives of the Fund and Acquisition LP. As of the date of this Circular, no third party solicitation agent has been engaged by the Fund or Acquisition LP. However, the Fund or Acquisition LP may retain a solicitation agent for the Unitholder Meeting and/or Debentureholder Meeting on terms and at a cost that the Fund anticipates would be customary for solicitation services in similar transactions. The total cost of the solicitation of proxies will be borne by the Fund except that the Transaction Agreement requires Acquisition LP to pay the costs in respect of any third party proxy solicitation services.

Q: Who can attend and vote at the Unitholder Meeting and Debentureholder Meeting and what is the quorum for the Unitholder Meeting and Debentureholder Meeting?
A: Unitholders of record as of the close of business on August 22, 2008, the Record Date for the Unitholder Meeting, are entitled to receive notice of and to attend and vote at the Unitholder Meeting, or any adjournments or postponements of the Unitholder Meeting. The presence of one or more Debentureholders present in person or by proxy and representing at least 25% in principal amount of the outstanding Debentures and at least 25% in principal amount of each series of Debentures is necessary for a quorum at the Debentureholder Meeting.

The Meeting Materials are being sent to beneficial Unitholders and Debentureholders. Only CDS & Co., as the registered holder of Trust Units and Debentures, and CFFI, as the registered holder of Special Trust Units, or their respective duly appointed proxyholders, are permitted to vote at the Unitholder Meeting and Debentureholder Meeting, as applicable. However, in accordance with applicable securities laws, the Fund is distributing copies of the Meeting Materials to
depositories and other intermediaries for onward distribution to beneficial Unitholders and Debentureholders. Beneficial Unitholders and Debentureholders can direct their broker or other intermediary to vote their Units and Debentures, as applicable, in accordance with their instructions. Please see “Solicitation of Proxies and Voting Instructions – Beneficial Unitholders and Debentureholders”

Q: How many Units and Debentures are entitled to vote at the Unitholder Meeting and the Debentureholder Meeting, respectively?

A: As of August 22, 2008, there were 27,745,695 Trust Units and 23,381,217 Special Trust Units issued and outstanding and, subject to MI 61-101, entitled to vote at the Unitholder Meeting on all matters proposed to come before the Unitholder Meeting on the basis of one vote for each Unit held. To the knowledge of the Fund, votes attached to a total of 11,609,740 Trust Units and all of the Special Units will be excluded in determining whether approval of a majority of the votes cast by Minority Unitholders for the Proposed Transaction has been obtained for the purposes of MI 61-101.

As of August 22, 2008, there were $45,000,000 aggregate principal amount of Series 1 Debentures and $44,389,000 aggregate principal amount of Series 2 Debentures issued and outstanding and entitled to vote at the Debentureholder Meeting on all matters proposed to come before the Debentureholder Meeting on the basis of one vote in respect of each $1,000 principal amount of Debentures held.

Q: In addition to the Unitholder Approval and the Debentureholder Approval, are there any other approvals required for the Proposed Transaction?

A: Yes, the Proposed Transaction is subject to the receipt of certain anti-trust and other regulatory approvals in Canada. See “Principal Legal Matters — Regulatory Matters”

Q: Do any Trustees or executive officers of the Fund have any interest in the Proposed Transaction that are different from, or in addition to, those of Unitholders and Debentureholders?

A: Except as described under “General Information Regarding Voting Units – Principal Holders of Voting Securities”, “Ownership by Trustees, Directors, Officers and Others of the Fund’s Securities” and “Interests of Informed Persons in Material Transactions” in this Circular, no Trustee or executive officer of the Fund nor any of their respective associates or affiliates has any material interest, direct or indirect, by way of beneficial ownership of securities or otherwise, in any matter to be acted upon at the Meeting.

Q: Will the Trust Units and Debentures continue to be listed on the TSX following completion of the Proposed Transaction?

A: It is intended that the Trust Units and, if appropriate, the Debentures, will be de-listed from the TSX on or about the Closing Date, which is expected to occur in early October, 2008. In addition, following completion of the Proposed Transaction, the Fund intends to make an application to cease to be a “reporting issuer”.

Q: What action am I required to take to receive the Unit Redemption Price or Debenture Redemption Price, as applicable?

A: Unitholders and Debentureholders are not required to take any action in order to receive payment of the Unit Redemption Price or Debenture Redemption Price, as applicable. On the Closing Date, CDS & Co., the sole registered holder of the Trust Units and Debentures will surrender the global certificates representing the Trust Units and Debentures to be redeemed to Computershare in exchange for payment of the aggregate Unit Redemption Price and the aggregate Debenture Redemption Price (together with accrued and unpaid interest to but excluding the Closing Date), respectively. As promptly as practicable following the Closing Date, CDS will transfer, directly
or indirectly, the applicable portion of the aggregate Unit Redemption Price and the aggregate Debenture Redemption Price (together with accrued and unpaid interest to but excluding the Closing Date) to the broker or other intermediary through which each applicable Unitholder and Debentureholder holds their Trust Units or Debentures, as applicable.

Q: When can I expect to receive consideration for my Units or Debentures?
A: As soon as practicable after the completion of the Proposed Transaction and receipt of the global certificates for the Debentures and the Trust Units, the Depositary will make a payment, directly or indirectly, to each Unitholder and Debentureholder in the amount of the Unit Redemption Price or Debenture Redemption Price (together with accrued and unpaid interest to but excluding the Closing Date), as applicable, multiplied by the number of Units or the principal amount of Debentures owned. The amount of time that it takes a Unitholder’s or Debentureholder’s broker or intermediary to receive such consideration will depend on the particular broker or intermediary. Beneficial Unitholders and Debentureholders should contact their broker or other intermediary to determine when they will receive the Unit Redemption Price or Debenture Redemption Price, as applicable.

Q: How will the votes at the Unitholder Meeting and Debentureholder Meeting be counted?
A: Computershare Investor Services Inc., the Fund’s Transfer Agent, counts and tabulates the proxies at the Unitholder Meeting and Computershare Trust Company of Canada, the Debenture Trustee, counts and tabulates the proxies at the Debentureholder Meeting.

Q: When will the Proposed Transaction be Completed?
A: The Closing Date for the Proposed Transaction is expected to occur in early October, 2008. Because the Proposed Transaction is subject to a number of conditions, some of which are beyond the Fund’s and Acquisition LP’s control, the exact timing of Closing of the Proposed Transaction cannot be predicted.

Q: What are the tax consequences of the Proposed Transaction to me?
A: On the redemption of a Trust Unit for $4.50 on the Unit Redemption, a Unitholder will generally realize a capital gain (or capital loss) in respect of the redemption of the Trust Unit on the Unit Redemption to the extent that the redemption proceeds exceed (or are less than) the Unitholder’s adjusted cost base of the Trust Unit and the Unitholder’s reasonable costs of disposition.

On the redemption of a Debenture on the Debenture Redemption, a Debentureholder will generally realize a capital gain (or capital loss) equal to the amount by which the Debentureholder’s proceeds of disposition (other than an amount received or deemed to be received on account of interest) exceed (or are less than) the Debentureholder’s adjusted cost base of the Debentures and the Debentureholder’s reasonable costs of disposition. In connection with the redemption of a Debenture on the Debenture Redemption, Debentureholders will receive a payment of accrued and unpaid interest to but excluding the Closing Date. In addition, the 1% premium paid by the Fund to a Debentureholder upon the Debenture Redemption will generally be deemed to be interest received at that time by such Debentureholder to the extent that such premium can reasonably be considered to relate to, and does not exceed the value on the date of the Debenture Redemption, of the interest that would have been paid or payable by the Fund on the Debentures for taxation years of the Fund ending after the date of the Debenture Redemption. Such interest (or deemed interest) will be included in computing the Debentureholder’s income, except to the extent such amount was otherwise included in the Debentureholder’s income, and will be excluded in computing the Debentureholder’s proceeds of disposition of the Debenture.

For further disclosure regarding certain Canadian federal income tax considerations, including considerations relevant to a Unitholder and/or a Debentureholder who, for
purposes of the Tax Act and any applicable tax convention, is not resident in Canada, see “Certain Canadian Federal Income Tax Considerations”.

The foregoing summary is intended to be illustrative of the tax consequences of the Proposed Transaction, including the Unit Redemption and the Debenture Redemption and is not intended to be tax advice to any particular Unitholder or Debentureholder. Unitholders and/or Debentureholders should consult their own tax advisors with respect to their particular circumstances.

Q: Who can I contact if I have questions?

Background to the Proposed Transaction

The following is a summary of the events and circumstances, including meetings, negotiations, discussions and actions, leading up to the execution of the Transaction Agreement and public announcement of the Proposed Transaction on August 14, 2008.

During the first nine months of 2007, Clearwater experienced significant deterioration in its financial performance due primarily to softening scallop sales, disruptions to its clam fleet, rising fuel costs and the effects of the strengthening Canadian dollar.

At meetings of the board of directors of CS Manpar and the Trustees in September 2007 and October 2007, representatives of CFFI indicated that CFFI was considering its options with respect to its interest in the Fund, including the possibility of seeking partners to take Clearwater private, although it was uncertain whether any such transaction was feasible. The Trustees determined to monitor events to determine if and when any action was warranted on the part of the Fund.

At its meeting on November 13, 2007, the Trustees resolved to proceed with a review of the Fund’s strategic alternatives, including engaging a financial advisor. The strategic review was prompted by a number of factors, including Clearwater’s weak financial performance over the first nine months of 2007, the challenges faced by the Fund in maintaining distributions, concerns regarding the effects of changes to Canadian tax legislation affecting income trusts and CFFI’s review of its options. On that date, the Trustees announced that it had initiated a process for identifying and considering strategic alternatives available to maximize Unitholder value. CFFI concurrently announced its support for the Fund’s strategic review while reiterating its commitment to maintaining Clearwater as a long term strategic investment and its belief in the long term prospects of the business.

Throughout the end of 2007 and the first half of 2008, CFFI sought to identify an equity partner to participate in a going-private transaction involving the Fund, identifying a potential partner by May 2008. In July 2008, CFFI advised the Trustees that CFFI was continuing its negotiations with an equity partner
and potential lenders, and requested that, to assist with such negotiations, CFFI desired to obtain the Fund’s feedback regarding the nature of the transaction that CFFI had been discussing with its potential financing sources. CFFI also provided an indication of the potential range of cash consideration per Trust Unit that the financing arrangements under discussion would permit. Representatives of CFFI provided a draft Transaction Agreement to the Trustees and their advisors, and negotiations regarding the form of the potential transaction and the terms of the Transaction Agreement continued until August 14, 2008. During this time, the Trustees met several times with their legal advisors and BMO Capital Markets to consider the potential transaction.

On August 13, 2008, CFFI advised the Trustees that it had obtained the equity and debt financing commitments required to complete a transaction that would provide Unitholders with a price of $4.50 per Trust Unit. After meeting with their legal advisors and receiving the Valuation and Fairness Opinion from BMO Capital Markets, and considering a number of factors, including those described under “Review and Approval of the Proposed Transaction – Reason’s for the Trustees’ Recommendation”, on August 14, 2008, the Trustees unanimously determined that the consideration per Trust Unit to be received pursuant to the Proposed Transaction was fair, from a financial point of view, to the Minority Unitholders, and that the Proposed Transaction was in the best interests of the Minority Unitholders, and unanimously adopted a resolution approving the Proposed Transaction and the Transaction Agreement, and resolved to support and to recommend that the Minority Unitholders provide the Unitholder Approval. The Fund then executed and delivered the Transaction Agreement and the Proposed Transaction was announced by press release.

See “Review and Approval of the Proposed Transaction – Background to the Proposed Transaction”.

Recommendation of the Trustees

The Trustees, after consultation with their outside legal advisors, and upon receiving the Valuation and Fairness Opinion from BMO Capital Markets, have unanimously determined that the Unit Redemption Price to be received by the Minority Unitholders pursuant to the Proposed Transaction is fair, from a financial point of view, to the Minority Unitholders, and that the Proposed Transaction is in the best interests of the Minority Unitholders. Each of the Trustees was determined to be an “independent director” for the purposes of MI 61-101 and as a result, the Trustees did not form an “independent committee” (as such term is defined in MI 61-101). THE TRUSTEES UNANIMOUSLY RECOMMEND THAT MINORITY UNITHOLDERS VOTE FOR THE UNITHOLDER RESOLUTION.

See “Review and Approval of the Proposed Transaction – Recommendation of the Trustees”.

Reasons for the Trustees’ Recommendation

In making the recommendation referred to above, the Trustees considered various factors, including the factors set out below.

(a) **Premium to Market Price.** The Unit Redemption Price of $4.50 per Trust Unit to be received by the Minority Unitholders pursuant to the Proposed Transaction represents a premium of approximately 32% over the volume weighted average price of the Trust Units based on the trading volume on the TSX over the 20 trading days ended August 13, 2008, the last day of trading before the announcement of the Proposed Transaction.

(b) **Valuation and Fairness Opinion.** The Trustees have received the Valuation and Fairness Opinion that states that, as of the date of the Valuation and Fairness Opinion, and based upon and subject to the assumptions, limitations, analysis and such other matters as BMO Capital Markets considered relevant all as set forth in the Valuation and Fairness Opinion, the fair market value of the Trust Units is in the range of $3.80 to $4.60 per Trust Unit, and the Unit Redemption Price of $4.50 per Trust Unit to be received by the Minority Unitholders pursuant to the Proposed Transaction is fair, from a financial point of view, to the Minority Unitholders. The Trustees noted that the Unit Redemption Price to be received by the Minority Unitholders pursuant to the
The Proposed Transaction is at the upper end of the fair market value range determined by BMO Capital Markets in its Valuation and Fairness Opinion.

(c) **Cash Consideration.** The Unit Redemption Price to be received by the Minority Unitholders pursuant to the Proposed Transaction will be paid entirely in cash, which provides Minority Unitholders certainty of value for their Trust Units.

(d) **Immediate Liquidity.** The Proposed Transaction provides Minority Unitholders with immediate and complete liquidity for their Trust Units, the historical trading volumes for which have been low.

(e) **Financial Challenges Facing the Fund.** The Fund has faced several financial challenges in recent periods, including high fuel costs, a relatively high Canadian dollar, weak markets for certain of its products and disruptions with its fleet. As a result of these challenges, the financial performance of the Fund has deteriorated. The Fund has not been able to pay distributions on its Fund Units since December 2007, and there can be no assurance that distributions will be reinstated in the near or medium term future, or at all. In addition, a significant amount of debt of Clearwater matures at the end of 2008 such that, if the Proposed Transaction is not completed, Clearwater will need to refinance its debt in what is currently a difficult credit market. There can be no assurance that such debt refinancing will be available on favourable terms or at all. The Trustees’ assessment is that many of these issues will likely continue to present significant challenges to the Fund and Clearwater for the foreseeable future.

(f) **Fund Structure.** The current structure of the Fund poses additional challenges over and above the company-specific factors outlined above. As a result of the Canadian government’s income trust legislation that will impose a tax on all income trusts commencing in 2011, income trusts’ ability to raise new equity capital needed for growth has been significantly negatively affected. For income trusts that have had weak financial performance, such as the Fund, these negative impacts have been amplified.

(g) **Lack of Alternative Proposals.** Following the announcement on November 13, 2007 that the Trustees would conduct a strategic review process, the Fund has not received any expressions of interest from parties other than CFFI. CFFI has advised the Trustees that in its process of seeking partners for a going-private transaction, CFFI contacted numerous parties, including Canadian and U.S. financial sponsors, Canadian pension funds, and strategic players, however, only a limited number submitted proposals to CFFI. Only one strategic partner, Maruha Nichiro Holdings, a global seafood company that sees significant long term value in the assets, made a proposal that CFFI believed could be viewed as acceptable. Given its approximate 48% voting control of the Fund, CFFI is effectively able to veto any significant transaction requiring Unitholder approval, including a sale of all or substantially all the assets of the Fund. CFFI has consistently advised the Fund that it has no interest in selling its interest in the Fund or Clearwater, making a successful alternative proposal unlikely.

(h) **Ability to Seek and Respond to Superior Proposals.** Under the Transaction Agreement, the Trustees have reserved the ability to seek and to respond to proposals that may deliver greater value to the Minority Unitholders than the Proposed Transaction. In addition, the Trustees may support a superior proposal without becoming obligated to pay any termination or break fees.

The foregoing discussion of information and factors considered by the Trustees is not intended to be exhaustive. In addition, in reaching its determination and recommendation, the Trustees did not collectively assign any relative or specific weight to the foregoing factors which were considered, and individual Trustees may have given different weight to different factors.

Minority Unitholders should consider the Proposed Transaction carefully and come to their own conclusions as to acceptance or rejection of the Proposed Transaction. Minority Unitholders who are in doubt as to how to respond should consult their own financial, legal and other professional
advisors. Minority Unitholders are advised that acceptance of the Proposed Transaction may have
tax consequences and that they should consult their tax advisors.

See “Review and Approval of the Proposed Transaction – Reasons for the Trustees’ Recommendation”.

**BMO Capital Markets’ Valuation and Fairness Opinion**

BMO Capital Markets has delivered the Valuation and Fairness Opinion to the Trustees which states that
as of August 13, 2008, and based upon and subject to the assumptions, limitations, analysis and such
other matters as BMO Capital Markets considered relevant, as set forth in the Valuation and Fairness
Opinion, the fair market value range for the Trust Units is between $3.80 and $4.60 per Trust Unit and
that the Unit Redemption Price of $4.50 per Trust Unit to be received by the Minority Unitholders
pursuant to the Proposed Transaction is fair, from a financial point of view, to the Minority Unitholders.

BMO Capital Markets has advised that it is qualified to provide the independent valuation and is of the
view that it is independent of all interested parties in the Proposed Transaction for the purposes of MI 61-
101. As described elsewhere in this Circular, the Trustees have relied upon, among other things, the
Valuation and Fairness Opinion in recommending to Minority Unitholders that they approve the Proposed
Transaction.

In connection with the preparation of the Valuation and Fairness Opinion, BMO Capital Markets
reviewed, among other things, information provided by the Fund, Clearwater, CS ManPar, and the
Purchaser Consortium and undertook various procedures, including meeting with Management, the
Trustees and representatives of CFFI, as more specifically described in the Valuation and Fairness
Opinion. The full text of the Valuation and Fairness Opinion, which sets forth, among other things, the
assumptions, limitations on the scope of review undertaken by BMO Capital Markets and certain other
matters, is attached as Appendix “C” to this Circular and includes a discussion of the valuation
methodologies used by BMO Capital Markets. Unitholders are urged to read the Valuation and Fairness
Opinion in its entirety. The summary of the Valuation and Fairness Opinion described in this Circular is
qualified in its entirety by reference to the full text of the Valuation and Fairness Opinion. BMO Capital
Markets provided the Valuation and Fairness Opinion solely for the information and assistance of the
Trustees in connection with their consideration of the Proposed Transaction. The Valuation and Fairness
Opinion is not a recommendation as to how Unitholders should vote with respect to the Unitholder
Resolution.

See “Review and Approval of the Proposed Transaction – BMO Capital Markets’ Valuation and Fairness
Opinion”.

**Summary of the Transaction Agreement**

The Transaction Agreement is described beginning at page 46 and a copy is attached in its entirety as
Appendix “D” to this Circular. You should read the Transaction Agreement in its entirety because it
contains important provisions governing the terms and conditions of the Transaction Agreement.

**Transaction Steps**

If the Unitholder Approval is obtained, the Proposed Transaction will consist of a number of transaction
steps, including, among others, the Unit Redemption and, if the Debentureholder Approval is obtained,
the Debenture Redemption, which shall occur or be deemed to occur in the order set forth in the
Transaction Agreement (provided that none of the transaction steps shall be deemed to occur unless all
such steps shall have occurred and been completed).

See “Summary of the Transaction Agreement – Transaction Steps”.

21
Termination Events

The Transaction Agreement may be terminated: (i) by the mutual written agreement of the Fund and Acquisition LP; or (ii) by either the Fund or Acquisition LP if: (a) the Effective Time shall not have occurred on or before the Outside Date, except that the right to terminate the Transaction Agreement under this provision shall not be available to any party whose failure to fulfill any of its obligations has been the cause of, or resulted in, the failure of the Effective Time to occur by such date; (b) after the date of the Transaction Agreement, there shall be enacted or made any Applicable Law (or any Applicable Law shall have been amended) that makes consummation of the Proposed Transaction illegal or otherwise prohibited or enjoins the Fund or any of its Subsidiaries or Acquisition LP from consummating the Proposed Transaction and such Applicable Law (if applicable) or enjoinder shall have become final and non-appealable; or (c) the Unitholder Approval shall not have been obtained at the Unitholder Meeting (including any adjournment or postponement thereof).

(i) Termination by the Fund

The Fund may terminate the Transaction Agreement if a breach of any representation or warranty or failure to perform any covenant or agreement on the part of Acquisition LP set forth in the Transaction Agreement shall have occurred that would cause the conditions set forth under “Summary of the Transaction Agreement – Conditions Precedent to Completion of the Proposed Transaction – Mutual Conditions Precedent to Completion” or “Summary of the Transaction Agreement – Conditions Precedent to Completion of the Proposed Transaction – Conditions to Completion for the Benefit of the Fund” not to be satisfied, and such condition is incapable of being satisfied by the Outside Date; provided that the Fund is not then in breach of the Transaction Agreement so as to cause any of the conditions set forth under “Summary of the Transaction Agreement – Conditions Precedent to Completion of the Proposed Transaction – Mutual Conditions Precedent to Completion” or “Summary of the Transaction Agreement – Conditions Precedent to Completion of the Proposed Transaction – Conditions to Completion for the Benefit of Acquisition LP” not to be satisfied.

(ii) Termination by Acquisition LP

Acquisition LP may terminate the Transaction Agreement by providing written notice to the Fund if:

(a) a breach of any representation or warranty or failure to perform any covenant or agreement on the part of the Fund set forth in the Transaction Agreement shall have occurred that would cause the conditions set forth under “Summary of the Transaction Agreement – Conditions Precedent to Completion of the Proposed Transaction – Mutual Conditions Precedent to Completion” or “Summary of the Transaction Agreement – Conditions Precedent to Completion of the Proposed Transaction – Conditions to Completion for the Benefit of Acquisition LP” not to be satisfied, and such conditions are incapable of being satisfied by the Outside Date; provided that Acquisition LP is not then in breach of the Transaction Agreement so as to cause any of the conditions set forth under “Summary of the Transaction Agreement – Conditions Precedent to Completion of the Proposed Transaction – Mutual Conditions Precedent to Completion” or “Summary of the Transaction Agreement – Conditions Precedent to Completion of the Proposed Transaction – Conditions to Completion for the Benefit of the Fund” not to be satisfied;

(b) prior to obtaining Unitholder Approval, the Trustees withdraw, amend, modify or qualify, in a manner adverse to Acquisition LP, the approval or recommendation of the Trustees of the Proposed Transaction, or shall fail to reaffirm such approval or recommendation within two Business Days of receipt of any written request to do so by Acquisition LP; or

(c) a Material Adverse Effect exists or has occurred following the date of the Transaction Agreement;

See “Summary of the Transaction Agreement – Termination Events”.

**Transaction Expenses**

Pursuant to the Transaction Agreement, the Fund and Acquisition LP shall each pay their respective legal, financial advisory and accounting costs and expenses incurred in connection with the preparation, execution and delivery of the Transaction Agreement and all documents and instruments executed or prepared pursuant to the Transaction Agreement and any other costs and expenses whatsoever and howsoever incurred, except that Acquisition LP shall pay, among others, (i) the reasonable out-of-pocket expenses of BMO Capital Markets in respect of the Valuation and Fairness Opinion, and (ii) the costs of any dealer or proxy solicitation service engaged in connection with the solicitation of proxies for the Unitholder Meeting and/or Debentureholder Meeting.

If the Proposed Transaction is not completed and the Transaction Agreement is terminated as a result of a breach of the Transaction Agreement by Acquisition LP or a breach of any of the undertakings delivered by members of the Purchaser Consortium dated the date of the Transaction Agreement, Acquisition LP shall reimburse the Fund in respect of any costs and expenses incurred in respect of the Transaction Agreement or the Proposed Transaction (which costs and expenses shall include, without limitation, any prepayment penalties, breakage fees, expenses or other fees incurred in respect of (i) the withdrawal of notices of prepayment sent in respect of the Existing Credit Facilities and the Notes; and (ii) the transactions contemplated by the Debt Financing Commitment Letters). CFFI has provided a guarantee of this obligation of Acquisition LP.

See “Summary of the Transaction Agreement – Transaction Expenses”.

**Position of the Debentureholders if the Debentureholder Approval is not Obtained and the Proposed Transaction is Completed**

The Debentureholder Approval is a condition to the completion of the Proposed Transaction that may be waived at the option of Acquisition LP.

The volume weighted average trading price for the Series 1 Debentures and the Series 2 Debentures on the TSX during the period of 20 trading days prior to the announcement of the Proposed Transaction was $88.18 and $79.78, respectively, which is 88.18% and 79.78% of the principal amount of the Series 1 Debentures and Series 2 Debentures, respectively. The Debenture Redemption Price to be received by Debentureholders pursuant to the Debenture Redemption is 101% of the principal amount of the Series 1 Debentures and Series 2 Debentures. Accordingly, the Debenture Redemption Price represents a 15% and 27% premium over the volume weighted average trading price for the Series 1 Debentures and the Series 2 Debentures, respectively, on the TSX during the period of 20 trading days prior to the announcement of the Proposed Transaction.

Each of the Series 1 Debentures and Series 2 Debentures are convertible into Trust Units at the option of the Debentureholders. Currently, the Conversion Price for the Series 1 Debentures is $12.25 such that approximately 81.6327 Trust Units would be issuable for each $1,000 principal amount of Series 1 Debentures converted. The current Conversion Price for the Series 2 Debentures is $5.90 such that approximately 169.4915 Trust Units would be issuable for each $1,000 principal amount of Series 2 Debentures converted. Accordingly, if a Debentureholder were to convert $1,000 principal amount of Series 1 Debentures or Series 2 Debentures, as applicable, into Trust Units prior to the Effective Time, such Debentureholder would receive, on completion of the Proposed Transaction, aggregate consideration of $367.35, in the case of Series 1 Debentures, or $762.71, in the case of Series 2 Debentures, which in each case is less than the Debenture Redemption Price of $1,010 that such Debentureholder would receive pursuant to the Debenture Redemption if such holder did not convert such Debentures and if the Debentureholder Approval is obtained and the Proposed Transaction is completed.

The Debentures are not currently redeemable at the option of the Fund or the Debentureholders. If the Debentureholder Approval is not obtained and the Proposed Transaction is completed, the Debentures will continue to accrue interest in accordance with the terms of the Debenture Trust Indenture. If the Debentureholder Approval is not obtained, following completion of the Proposed Transaction, the Fund
may be required to make an offer to purchase all of the outstanding Debentures at a redemption price that would be equal to the Debenture Redemption Price.

Following the Proposed Transaction, any Debentureholder who wishes to convert all or a portion of such holder’s Debentures into Trust Units, would be entitled to receive and would be required to accept, upon conversion, in lieu of the number of Trust Units then sought to be acquired by such holder pursuant to the conversion of such holder’s Debentures, the consideration that such holder would have been entitled to receive pursuant to the Proposed Transaction had such holder held such number of Trust Units sought to be acquired at the Effective Time.

See “Position of the Debentureholders if the Debentureholder Approval is not Obtained and the Proposed Transaction is Completed”.

**Principal Legal Matters**

*Regulatory Matters*

The Proposed Transaction is conditional upon the filing of all required notifications, the receipt of all consents and approvals and certain other regulatory requirements to the extent necessary as determined by the parties, acting reasonably.

See “Principal Legal Matters – Regulatory Matters”.

*Canadian Securities Law Matters*

The Proposed Transaction constitutes a “business combination” under MI 61-101 because it may involve the termination of certain Unitholders’ interest in the Fund without such Unitholders’ consent. MI 61-101 provides that, unless exempted, a reporting issuer proposing to carry out a business combination is required to obtain a formal valuation of the affected securities from a qualified independent valuator and to provide the holders of the affected securities with a summary of such valuation. For the purposes of the Proposed Transaction, the Units are considered “affected securities” within the meaning of MI 61-101. See “Review and Approval of the Proposed Transaction – BMO Capital Markets’ Valuation and Fairness Opinion” and see Appendix “C” to this Circular for a copy of the Valuation and Fairness Opinion.

In addition, MI 61-101 requires that, in addition to any other required securityholder approval, in order to complete a business combination, the approval of a simple majority of the votes cast by Minority Unitholders must be obtained.

See “Principal Legal Matters – Canadian Securities Law Matters”.

*Stock Exchange De-Listing and Reporting Issuer Status*

After submission of the requisite notices and applications, it is intended that the Trust Units and, if appropriate, the Debentures, will be de-listed from the TSX on or about the Closing Date, which is expected to occur in early October, 2008. In addition, following completion of the Proposed Transaction, the Fund intends to make an application to cease to be a “reporting issuer”.

See “Principal Legal Matters – Stock Exchange De-Listing and Reporting Issuer Status”.

*Certain Canadian Federal Income Tax Considerations*

On the redemption of a Trust Unit for $4.50 on the Unit Redemption, a Unitholder will generally realize a capital gain (or capital loss) in respect of the redemption of the Trust Unit on the Unit Redemption to the extent that the redemption proceeds exceed (or are less than) the Unitholder’s adjusted cost base of the Trust Unit and the Unitholder’s reasonable costs of disposition.

On the redemption of a Debenture on the Debenture Redemption, a Debentureholder will generally realize a capital gain (or capital loss) equal to the amount by which the Debentureholder’s proceeds of disposition (other than an amount received or deemed to be received on account of interest) exceed (or are less than) the Debentureholder’s adjusted cost base of the Debentures and the Debentureholder’s
reasonable costs of disposition. In connection with the redemption of a Debenture on the Debenture Redemption, Debentureholders will receive a payment of accrued and unpaid interest to but excluding the Closing Date. In addition, the 1% premium paid by the Fund to a Debentureholder upon the Debenture Redemption will generally be deemed to be interest received at that time by such Debentureholder to the extent that such premium can reasonably be considered to relate to, and does not exceed the value on the date of the Debenture Redemption, of the interest that would have been paid or payable by the Fund on the Debentures for taxation years of the Fund ending after the date of the Debenture Redemption. Such interest (or deemed interest) will be included in computing the Debentureholder’s income, except to the extent such amount was otherwise included in the Debentureholder’s income, and will be excluded in computing the Debentureholder’s proceeds of disposition of the Debenture.

For further disclosure regarding certain Canadian federal income tax considerations, including considerations relevant to a Unitholder and/or a Debentureholder who, for purposes of the Tax Act and any applicable tax convention, is not resident in Canada, see “Certain Canadian Federal Income Tax Considerations”.

The foregoing summary is intended to be illustrative of the tax consequences of the Proposed Transaction, including the Unit Redemption and the Debenture Redemption and is not intended to be tax advice to any particular Unitholder or Debentureholder. Unitholders and/or Debentureholders should consult their own tax advisors with respect to their particular circumstances.

See “Certain Canadian Federal Income Tax Considerations”.

Proxy Information

Beneficial Unitholders and Debentureholders

The Trust Units and Debentures have been issued in the form of global certificates registered in the name of CDS & Co. and the Special Trust Units have been issued in the form of a global certificate registered in the name of CFFI. As such, CDS & Co. and CFFI are the sole registered holders of the Units and Debentures. Accordingly, substantially all Unitholders and Debentureholders do not hold their Units or Debentures, as applicable, in their own name. Such Units and Debentures are held by such Unitholders and Debentureholders, respectively, through one or more intermediaries (such as a bank, trust company, securities dealer or broker, or trustee or administrator of a self-administered RRSP, RRIF, RESP or similar plan).

Only registered Unitholders and Debentureholders, or their respective duly appointed proxyholders, are permitted to attend and vote at the Unitholder Meeting and Debentureholder Meeting, respectively, or to appoint or revoke a proxy. If you are a beneficial owner, you are entitled to: (i) direct how the Units or Debentures, as applicable, beneficially owned by you are to be voted, or (ii) obtain a form of legal proxy that will entitle you to attend and vote at the Unitholder Meeting or Debentureholder Meeting, as applicable.

Applicable Canadian securities law requires the Fund to forward Meeting Materials to depositories and other intermediaries for onward distribution to beneficial Unitholders and Debentureholders who have not waived their right to receive such materials, and to seek voting instructions from such beneficial Unitholders and Debentureholders in advance of the Unitholder Meeting and Debentureholder Meeting, respectively. Typically, intermediaries will use a service company (such as Broadridge Financial Solutions, Inc.) to forward the Meeting Materials to, and to obtain voting instructions from, beneficial owners.

If you are a beneficial Unitholder or Debentureholder, you will receive either a voting instruction form or a form of proxy with your Meeting Materials. The purpose of these documents is to permit you to direct the voting of the Units and/or Debentures you beneficially own. Every broker and other intermediary has its own mailing procedures and provides its own return instructions, which should be carefully followed by beneficial Unitholders and Debentureholders in order to ensure that their Units and
Debentures, as applicable, are voted at the Unitholder Meeting and Debentureholder Meeting, respectively.

See “Solicitation of Proxies and Voting Instructions – Beneficial Unitholders and Debentureholders”.

Registered Unitholders and Debentureholders

If you are a registered Unitholder or Debentureholder and do not wish to, or are unable to, attend the Unitholder Meeting or Debentureholder Meeting, respectively, you can exercise your right to vote:

(a) in the case of registered Unitholders, by completing, signing and returning a form of proxy for the Units to Computershare by: (i) facsimile to (416) 263-9524 (Toronto or outside of North America) or 1-866-249-7775 (North America); or (ii) by mail or delivery in person to Computershare Investor Services Inc. at 100 University Avenue, 9th Floor, Toronto, Ontario, M5J 2Y1, in each case so as to ensure that the form of proxy arrives not later than 10:30 a.m. (Halifax time), on September 19, 2008 or, if the Unitholder Meeting is adjourned, 24 hours (excluding Saturdays, Sundays and holidays) before any adjourned Unitholder Meeting.

(b) in the case of registered Debentureholders, by completing, signing and returning a form of proxy for the Series 1 Debentures or Series 2 Debentures, as applicable, to Computershare by: (i) facsimile to (416) 263-9524 (Toronto or outside of North America) or 1-866-249-7775 (North America); or (ii) by mail or delivery in person to Computershare Trust Company of Canada at 100 University Avenue, 9th Floor, Toronto, Ontario, M5J 2Y1, in each case so as to ensure that the applicable form(s) of proxy arrives not later than 11:00 a.m. (Halifax time), on September 19, 2008 or, if the Debentureholder Meeting is adjourned, 24 hours (excluding Saturdays, Sundays and holidays) before any adjourned Debentureholder Meeting.

If you have submitted a form of proxy and later wish to revoke it, you can do so by:

(a) completing and signing the applicable form of proxy bearing a later date and depositing it with Computershare as described above;

(b) depositing a document that is signed by you (or by someone you have properly authorized to act on your behalf): (i) at the registered office of the Fund, 757 Bedford Highway, Bedford, Nova Scotia, B4A 3Z7 to the attention of the “Assistant Secretary”, at any time up to the last Business Day preceding the day of the Unitholder Meeting or Debentureholder Meeting, as applicable, or any adjournment thereof, at which the form of proxy is to be used; or (ii) with the chairman of the Unitholder Meeting or Debentureholder Meeting, as applicable, before the meeting starts on the day of the meeting or any adjournment thereof; or

(c) following any other procedure that is permitted by law.

Only registered Unitholders and Debentureholders have the right to revoke a proxy. Beneficial Unitholders and Debentureholders who wish to change their vote must make appropriate arrangements with their respective brokers or other intermediaries.

See “Solicitation of Proxies and Voting Instructions – Registered Unitholders and Debentureholders”.

Unit Redemption and Debenture Redemption

If the Unitholder Resolution and Debentureholder Resolution are approved by Unitholders and Debentureholders, respectively, the Unit Redemption and the Debenture Redemption will be completed on the Closing Date. Unitholders and Debentureholders are not required to take any action in order to receive payment of the Unit Redemption Price or Debenture Redemption Price, as applicable.

On the Closing Date, CDS & Co., the sole registered holder of the Trust Units and Debentures will surrender the global certificates representing the Trust Units and Debentures to be redeemed to Computershare in exchange for payment of the aggregate Unit Redemption Price and the aggregate Debenture Redemption Price (together with accrued and unpaid interest to but excluding the Closing Date), as applicable, in each case subject to any applicable withholding tax. As promptly as practicable
following the Closing Date, CDS will transfer, directly or indirectly, the applicable portion of the aggregate Unit Redemption Price and aggregate Debenture Redemption Price (together with accrued and unpaid interest to but excluding the Closing Date), as applicable, in each case subject to applicable withholding tax, to the broker or other intermediary through which each applicable Unitholder and Debentureholder holds their Trust Units or Debentures, as applicable.

See “The Unit Redemption” and “The Debenture Redemption”.

MANAGEMENT INFORMATION CIRCULAR
SOLICITATION OF PROXIES AND VOTING INSTRUCTIONS

The information contained in this Circular is furnished in connection with the solicitation of proxies from (i) registered Unitholders (and of voting instructions in the case of beneficial Unitholders) to be used at the Unitholder Meeting to be held at 10:30 a.m. (Halifax time), on September 22, 2008, at the Marriott Harbourfront Hotel, Acadia C, 1919 Upper Water Street, Halifax, Nova Scotia; and (ii) registered Debentureholders (and of voting instructions in the case of beneficial Unitholders) to be used at the Debentureholder Meeting to be held at 11:00 a.m. (Halifax time), on September 22, 2008, at the Marriott Harbourfront Hotel, Acadia C, 1919 Upper Water Street, Halifax, Nova Scotia. It is expected that the solicitation will be made primarily by mail, but proxies and voting instructions may also be solicited personally by representatives of the Fund or by Acquisition LP. The information contained in this Circular is given as at August 22, 2008, except where otherwise noted.

The solicitation of proxies and voting instructions by this Circular is being made by or on behalf of the representatives of the Fund. The total cost of the solicitation of proxies will be borne by the Fund except that the Transaction Agreement requires Acquisition LP to pay the costs in respect of any third party proxy solicitation services. In addition, pursuant to the Transaction Agreement, Acquisition LP may, at its own expense and for so long as the Trustees have not changed their recommendation described under “Review and Approval of the Proposed Transaction – Recommendation of the Trustees”, directly or by engaging a soliciting dealer, actively solicit proxies in favour of the Unitholder Approval and Debentureholder Approval on behalf of management of the Fund. However, the Fund and Acquisition LP may retain a solicitation agent for the Unitholder Meeting and/or Debentureholder Meeting on terms and at a cost that the Fund anticipates will be customary for solicitation services in similar transactions.

Beneficial Unitholders and Debentureholders

The Trust Units and the Debentures have been issued in the form of global certificates registered in the name of CDS & Co. and the Special Trust Units have been issued in the form of a global certificate registered in the name of CFFI. As such, CDS & Co. and CFFI are the sole registered holders of Units and Debentures. Accordingly, substantially all Unitholders and Debentureholders do not hold their Units or Debentures, as applicable, in their own name. Such Units and Debentures are held by such Unitholders and Debentureholders, respectively, through one or more intermediaries (such as a bank, trust company, securities dealer or broker, or trustee or administrator of a self-administered RRSP, RRIF, RESP or similar plan).

Only registered Unitholders and Debentureholders, or their respective duly appointed proxyholders, are permitted to attend and vote at the Unitholder Meeting and Debentureholder Meeting, respectively, or to appoint or revoke a proxy. If you are a beneficial owner, you are entitled to: (i) direct how the Units or Debentures, as applicable, beneficially owned by you are to be voted, or (ii) obtain a legal form of proxy that will entitle you to attend and vote at the Unitholder Meeting or Debentureholder Meeting, as applicable.

Applicable Canadian securities laws require the Fund to forward Meeting Materials to depositories and other intermediaries for onward distribution to beneficial owners who have not waived their right to receive such materials and to seek voting instructions from such beneficial Unitholders and Debentureholders in advance of the Unitholder Meeting and Debentureholder Meeting, respectively. Typically, intermediaries will use a service company (such as Broadridge Financial Solutions, Inc.) to forward the Meeting Materials to, and to obtain voting instructions from, beneficial owners.

If you are a beneficial Unitholder or Debentureholder, you will receive either a voting instruction form or a form of proxy with your Meeting Materials. The purpose of these documents is to permit you to direct the voting of the Units and/or Debentures you beneficially own. Every broker and other intermediary...
has its own mailing procedures and provides its own return instructions. You should follow the instructions on the document you receive from your broker or other intermediary and the procedures set out below, depending on what type of document you receive.

A. Request for Voting Instructions

If you do not wish to, or are unable to, attend the Unitholder Meeting or Debentureholder Meeting, as applicable (or have another person who need not be a Unitholder or Debentureholder attend and vote on your behalf), you should complete, sign and return the enclosed request for voting instructions in accordance with the directions provided. You may revoke your voting instructions at any time by written notice to your intermediary, except that an intermediary is not required to honour the revocation unless it is received at least seven days before the Unitholder Meeting or Debentureholder Meeting.

If you wish to attend the Unitholder Meeting or Debentureholder Meeting, as applicable, and vote in person (or have another person who need not be a Unitholder or Debentureholder attend and vote on your behalf), you must complete, sign and return the enclosed request for voting instructions in accordance with the directions provided and a legal form of proxy will be sent to you giving you (or such other person) the right to attend and vote at the Unitholder Meeting or Debentureholder Meeting, as applicable. If you seek a legal form of proxy, you should follow the directions below under the heading “Solicitation of Proxies and Voting Instructions – Beneficial Unitholders and Debentureholders – Form of Proxy”.

or

B. Form of Proxy

The form of proxy may be signed by your intermediary (typically by a facsimile, stamped signature) and completed to indicate the number of Units or Debentures, as applicable, beneficially owned by you. If the form of proxy has not been completed, it is being used by your intermediary to obtain voting instructions only, in which case you should follow the instructions set forth under “Solicitation of Proxies and Voting Instructions – Beneficial Unitholders and Debentureholders – Request for Voting Instructions”.

If the form of proxy is completed and you do not wish to, or are unable to, attend the Unitholder Meeting or Debentureholder Meeting, as applicable, you should complete the form of proxy and deposit it in accordance with the instructions set out in the section titled “Solicitation of Proxies and Voting Instructions - Registered Unitholders and Debentureholders” above. If you wish to attend the Meeting, you must strike out the names of the persons named in the form of proxy and insert your name in the blank space provided. To be valid, proxies must be completed and returned to the Transfer Agent (in the case of Unitholders) or the Debenture Trustee (in the case of Debentureholders), as applicable, in the manner and with the times set forth under “Solicitation of Proxies and Voting Instructions – Registered Unitholders and Debentureholders – Appointment of Proxies”. You must register with the Transfer Agent when you arrive at the Unitholder Meeting and the Debenture Trustee when you arrive at the Debentureholder Meeting, as applicable.

You should follow the instructions on the document that you have received and contact your intermediary promptly if you need assistance.

Registered Unitholders and Debentureholders

If you are a registered Unitholder or Debentureholder, you may vote in person at the Unitholder Meeting or Debentureholder Meeting, as applicable, or you may appoint another person to represent you as your proxyholder to vote your Units or Debentures, as applicable, on your behalf. If you wish to attend the Unitholder Meeting or Debentureholder Meeting, as applicable, do not complete or return the enclosed form of proxy because you will vote in person at the Unitholder Meeting or Debentureholder Meeting, as
applicable. Please register with the Computershare Investor Services Inc. (the “Transfer Agent”), when you arrive at the Unitholder Meeting and Computershare Trust Company of Canada (the “Debenture Trustee”) when you arrive at the Debentureholder Meeting, as applicable.

The individuals named in the enclosed form of proxy are representatives of the Fund or its affiliates. You have the right to appoint someone else to represent you at the Unitholder Meeting or Debentureholder Meeting, as applicable, and may do so by inserting that other person’s name in the blank space in the form of proxy for the Unitholder Meeting or Debentureholder Meeting, as applicable. The following is a summary of the events and circumstances, including meetings, negotiations, discussions and actions, leading up to the execution of the Transaction Agreement and public announcement of the Proposed Transaction on August 14, 2008.

During the first nine months of 2007, Clearwater experienced significant deterioration in its financial performance due primarily to softening scallop sales, disruptions to its clam fleet, rising fuel costs and the effects of the strengthening Canadian dollar.

At meetings of the board of directors of CS Manpar and the Trustees in September 2007 and October 2007, representatives of CFFI indicated that CFFI was considering its options with respect to its interest in the Fund, including the possibility of seeking partners to take Clearwater private, although it was uncertain whether any such transaction was feasible. The Trustees determined to monitor events to determine if and when any action was warranted on the part of the Fund.
At its meeting on November 13, 2007, the Trustees resolved to proceed with a review of the Fund’s strategic alternatives, including engaging a financial advisor. The strategic review was prompted by a number of factors, including Clearwater’s weak financial performance over the first nine months of 2007, the challenges faced by the Fund in maintaining distributions, concerns regarding the effects of changes to Canadian tax legislation affecting income trusts and CFFI’s review of its options. On that date, the Trustees announced that it had initiated a process for identifying and considering strategic alternatives available to maximize Unitholder value. CFFI concurrently announced its support for the Fund’s strategic review while reiterating its commitment to maintaining Clearwater as a long term strategic investment and its belief in the long term prospects of the business.

Also on November 13, 2007, the Trustees announced that the Fund would continue to make distributions to Unitholders, and that it was likely that total distributions for 2007 would exceed 100% of the Fund’s distributable cash generated in 2007. Consequently, the Trustees announced that it would continue to monitor the Fund’s distribution policy on a monthly basis.

In late November 2007, the Trustees began discussions with BMO Capital Markets and other potential advisors regarding their possible engagement as financial advisor to the Trustees in connection with the strategic review. In December 2007, the Trustees retained Stewart McKelvey as their independent legal counsel.

Also in December 2007 and January 2008, representatives of CFFI advised the Trustees that CFFI was in preliminary discussions with potential partners regarding participation in a possible going-private transaction that would allow the Fund to address its structural concerns, including the need to refinance a significant portion of Clearwater’s outstanding debt before the end of 2008, while allowing Unitholders to realize value for their Trust Units, but that CFFI would require equity and debt financing to complete such a transaction.

On January 21, 2008, the Trustees announced the engagement of BMO Capital Markets for the limited purpose of reviewing the Fund’s strategic alternatives and to prepare, if requested, an independent formal valuation and a fairness opinion in respect of any proposed transaction. CFFI concurrently announced that Clearwater remained an important strategic investment for CFFI, but CFFI believed that the current income trust structure played a role in inhibiting Clearwater’s ability to grow and respond to the challenges it faced, and that CFFI was continuing to review its options with respect to its investment in Clearwater. Also on January 21, 2008, the Fund announced that in 2007 the Fund had distributed $0.60 per Trust Unit, which was in excess of the amount of distributable cash generated in 2007, and as a result the Fund would suspend distributions on its Trust Units.

From December 2007 to February 2008, BMO Capital Markets conducted its review of strategic alternatives, with representatives of BMO Capital Markets meeting with representatives of Management and CFFI and reviewing certain historical financial information and management projections, and other publicly available information. On February 13, 2008, representatives of BMO Capital Markets met with the Trustees and representatives of Stewart McKelvey to present the result of its review of the Fund’s potential strategic alternatives, including maintaining the status quo, conversion to a corporate structure, monetization of assets, a sale of the business or the possible acquisition of a significant complementary business. After reviewing the analysis provided by BMO Capital Markets and consulting with their legal advisors, the Trustees concluded that they could take no action other than maintain the status quo without the support of CFFI as the holder of a 48% interest in Clearwater. Since CFFI had stated its intention to maintain its investment in Clearwater and was continuing to review it options, no definitive action was taken by the Trustees at that time, other than to request that CFFI advise the Trustees of its intentions when it was able to do so.

Between January and June 2008, during scheduled meetings of the board of directors of CS ManPar, which included the Trustees, as well as in periodic discussions between Dr. Thomas D. Traves, Chairman of the Trustees and Mr. Stanley Spavold, Chief Financial Officer of CFFI, Mr. Spavold provided general updates regarding CFFI’s on-going consideration of proposing a possible going-private transaction.
involving the Fund pursuant to which CFFI would substantially maintain its interest in Clearwater, and its ability to obtain equity and debt financing required to complete such a transaction.

In May 2008, representatives of CFFI advised the Trustees that it had identified, and was in the process of negotiations with, a potential equity partner. Representatives of BMO Capital Markets met with representatives of management and CFFI in May 2008 to review Clearwater’s first quarter financial performance, updated budget and financial projections. Following these meetings, CFFI continued to pursue such negotiations as well as discussions with potential lenders regarding a possible transaction.

On May 9, 2008 representatives of Stikeman Elliott LLP, legal counsel to CFFI, contacted representatives of Goodmans LLP, counsel to the Fund, to discuss the possible timing and process for negotiating a transaction. Representatives of Goodmans LLP reported the substance of this call to representatives of Stewart McKelvey. On May 15, 2008, representatives of Stikeman Elliott LLP advised representatives of Goodmans LLP that CFFI was continuing its negotiations with an equity partner and potential lenders, and requested that, to assist with such negotiations, CFFI desired to obtain the Fund’s feedback regarding the nature of the transaction that CFFI had been discussing with its potential partners.

On May 17, 2008, representatives of BMO Capital Markets met with representatives of TD Securities and Glitmir, financial advisors to CFFI, during which representatives of TD Securities and Glitmir presented CFFI’s perspective on the factors it considered relevant to establishing a view on the value of Clearwater and the Fund, and provided an overview of the process undertaken by CFFI to identify an equity partner for the proposed transaction. Separately, Mr. Spavold advised Dr. Traves that CFFI continued to work diligently to obtain committed equity and debt financing for the transaction, and provided an indication of the potential range of cash consideration per Trust Unit that the financing arrangements under discussion would permit.

On May 18, 2008, Stikeman Elliott LLP, on behalf of CFFI, provided a draft of the Transaction Agreement to the Trustees, Stewart McKelvey and Goodmans LLP, together with a letter from CFFI advising that CFFI had, at that time, not secured commitments for the financing required to complete a transaction with the Fund, although it had made what it believed to be significant progress in that regard and advised that it intended to continue to work diligently to that end, but that it was in no position to make any offer to the Fund at that time. In the letter, CFFI advised that it had given consideration to a transaction structure which it would propose to the Fund if financing were to be secured and that it wished to share that structure with the Fund at that time to obtain the Fund’s feedback and to ensure that the transaction structure that it had been discussing with its potential equity and debt providers was acceptable to the Fund. Following July 18, 2008, Dr. Traves continued to receive updates from Mr. Spavold regarding CFFI’s progress in securing equity and debt commitments to finance a transaction. On July 23, 2008, representatives of Stikeman Elliott LLP met with representatives of BMO Capital Markets, Goodmans LLP and Stewart McKelvey to review the proposed transaction steps contemplated by the draft Transaction Agreement, including the potential participation by Maruha and the Rollover Unitholders.

On July 25, 2008, the board of directors of CS ManPar held a meeting during which representatives of CFFI provided an update regarding the Proposed Transaction. Following that meeting, the Trustees met with representatives of Stewart McKelvey and BMO Capital Markets to review the current status of discussions with CFFI. Later on July 25, 2008, representatives of Stewart McKelvey provided to Stikeman Elliott LLP a revised version of the draft Transaction Agreement reflecting the combined comments of Stewart McKelvey, Goodmans LLP and the Trustees.

On July 29, 2008, representatives of Stewart McKelvey and Goodmans LLP met by conference call with representatives of Stikeman Elliott LLP to discuss the comments to the draft Transaction Agreement. Also on July 29, 2008, representatives of Stikeman Elliott LLP provided to representatives of Stewart McKelvey and Goodmans LLP a draft of the Keep-Well Undertaking from Maruha in respect of the Proposed Transaction. On July 30, 2008, representatives of Stikeman Elliott LLP met by conference call with representatives of BMO Capital Markets, Stewart McKelvey and Goodmans LLP, including
members of the tax departments of Stewart McKelvey and Goodmans LLP, to discuss the proposed transaction steps.

On August 1, 2008, representatives of Stikeman Elliott LLP provided representatives of Stewart McKelvey and Goodmans LLP with a revised draft of the Transaction Agreement. On August 7, 2008, the Trustees met by conference call with representatives of BMO Capital Markets and Stewart McKelvey to discuss the draft Transaction Agreement and preliminary valuation considerations.

On August 8, 2008, after discussions with representatives of Stewart McKelvey, representatives of Goodmans LLP provided comments on the draft Transaction Agreement to representatives of Stikeman Elliott LLP together with a draft disclosure letter. Later on August 8, 2008, representatives of Stikeman Elliott LLP provided representatives of Stewart McKelvey and Goodmans LLP with a revised draft of the Transaction Agreement and drafts of the Debt Commitment Letters.

Between August 8, 2008 and August 13, 2008, representatives of Stewart McKelvey, Goodmans LLP and Stikeman Elliott LLP continued discussions regarding outstanding issues with respect to the draft Transaction Agreement. On August 12, 2008, representatives of Stikeman Elliott LLP advised representatives of Stewart McKelvey and Goodmans LLP that CFFI expected to receive signed Debt Commitment Letters and signed equity commitments within the next 24 hours, at which point CFFI expected to be able to present a firm proposal. Also on August 12, 2008, Dr. Traves met with Mr. Spavold to discuss the nature of the transaction, including range of consideration to Minority Unitholders, that the potential financing would permit.

A meeting of the Trustees was held at 5:00 p.m. (Atlantic time) on August 13, 2008, with a representative of Management of CS ManPar, BMO Capital Markets and Stewart McKelvey, at which time the representative of Management provided an update on the financial position of Clearwater and representatives of Stewart McKelvey provided an update on the status of negotiations. The Trustees agreed to reconvene if a formal proposal was received from CFFI.

At approximately 7:30 p.m. (Atlantic time), representatives of Stikeman Elliott LLP provided representatives of Stewart McKelvey and Goodmans LLP with copies of a letter from CFFI advising that CFFI had obtained the equity and debt financing commitments required to complete a transaction that would provide Unitholders with a price of $4.50 per Trust Unit accompanied by copies of the executed Debt Commitment Letters, the Keep-Well Undertaking, undertakings of the Rollover Unitholders and CFFI and a revised draft of the Transaction Agreement. At 9:00 p.m. (Atlantic time), the Trustees reconvened with representatives of BMO Capital Markets and Stewart McKelvey to discuss the proposal. Mr. Wilson was not available for the conference call. However, the Trustees invited representatives of BMO Capital Markets to present their oral Valuation and Fairness Opinion. After discussion of outstanding issues with representatives of Stewart McKelvey, the Trustees adjourned their meeting until the following morning at which time Mr. Wilson would be available and would have had an opportunity to review the presentation materials provided by representatives of BMO Capital Markets to accompany their oral Valuation and Fairness Opinion.

On the morning of August 14, 2008, all of the Trustees met again with representatives of BMO Capital Markets and Stewart McKelvey, at which time representatives of BMO Capital Markets reaffirmed their oral Valuation and Fairness Opinion, and representatives of Stewart McKelvey reported on further discussions regarding the draft Transaction Agreement. After a full discussion, the Trustees unanimously determined that the consideration per Trust Unit to be received pursuant to the Proposed Transaction was fair, from a financial point of view, to the Minority Unitholders, and that the Proposed Transaction was in the best interests of the Minority Unitholders, and unanimously adopted a resolution approving the Proposed Transaction and the Transaction Agreement, and resolved to support and to recommend that the Minority Unitholders provide the Unitholder Approval. In their capacity as a special committee of the board of directors of CS ManPar, the Trustees also unanimously resolved to recommend that the full board of directors of CS ManPar also approve the Proposed Transaction and all actions necessary for CS ManPar to take as the managing general partner of Clearwater and as administrator of the Fund in order to
carry out the Proposed Transaction. Immediately following the meeting of the Trustees, the full board of directors of CS ManPar met and unanimously accepted the recommendation of the Trustees. Immediately following the meeting of the Trustees of directors of CS ManPar, the Fund executed and delivered the Transaction Agreement and the Proposed Transaction was announced by press release.

Recommendation of the Trustees

The Trustees, after consultation with their outside legal advisors, and upon receiving the Valuation and Fairness Opinion from BMO Capital Markets, have unanimously determined that the Unit Redemption Price to be received by the Minority Unitholders pursuant to the Proposed Transaction is fair, from a financial point of view, to the Minority Unitholders, and that the Proposed Transaction is in the best interests of the Minority Unitholders. Each of the Trustees was determined to be an “independent director” for the purposes of MI 61-101 and as a result, the Trustees did not form an “independent committee” (as such term is defined in MI 61-101). THE TRUSTEES UNANIMOUSLY RECOMMEND THAT MINORITY UNITHOLDERS VOTE FOR THE UNITHOLDER RESOLUTION.

Reasons for the Trustees’ Recommendation

In making the recommendation referred to above, the Trustees considered various factors, including the factors set out below.

(a) Premium to Market Price. The Unit Redemption Price of $4.50 per Trust Unit to be received by the Minority Unitholders pursuant to the Proposed Transaction represents a premium of approximately 32% over the volume weighted average price of the Trust Units based on the trading volume on the TSX over the 20 trading days ended August 13, 2008, the last day of trading before the announcement of the Proposed Transaction.

(b) Valuation and Fairness Opinion. The Trustees have received the Valuation and Fairness Opinion that states that, as of the date of the Valuation and Fairness Opinion, and based upon and subject to the assumptions, limitations, analysis and such other matters as BMO Capital Markets considered relevant all as set forth in the Valuation and Fairness Opinion, the fair market value of the Trust Units is in the range of $3.80 to $4.60 per Trust Unit, and the Unit Redemption Price of $4.50 per Trust Unit to be received by the Minority Unitholders pursuant to the Proposed Transaction is fair, from a financial point of view, to the Minority Unitholders. The Trustees noted that the Unit Redemption Price to be received by the Minority Unitholders pursuant to the Proposed Transaction is at the upper end of the fair market value range determined by BMO Capital Markets in its Valuation and Fairness Opinion.

(c) Cash Consideration. The Unit Redemption Price to be received by the Minority Unitholders pursuant to the Proposed Transaction will be paid entirely in cash, which provides Minority Unitholders certainty of value for their Trust Units.

(d) Immediate Liquidity. The Proposed Transaction provides Minority Unitholders with immediate and complete liquidity for their Trust Units, the historical trading volumes for which have been low.

(e) Financial Challenges Facing the Fund. The Fund has faced several financial challenges in recent periods, including high fuel costs, a relatively high Canadian dollar, weak markets for certain of its products and disruptions with its fleet. As a result of these challenges, the financial performance of the Fund has deteriorated. The Fund has not been able to pay distributions on its Fund Units since December 2007, and there can be no assurance that distributions will be reinstated in the near or medium term future, or at all. In addition, a significant amount of debt of Clearwater matures at the end of 2008 such that, if the Proposed Transaction is not completed, Clearwater will need to refinance its debt in what is currently a difficult credit market. There can be no assurance that such debt refinancing will be available on favourable terms or at all. The
Trustees’ assessment is that many of these issues will likely continue to present significant challenges to the Fund and Clearwater for the foreseeable future.

(f) **Fund Structure.** The current structure of the Fund poses additional challenges over and above the company-specific factors outlined above. As a result of the Canadian government’s income trust legislation that will impose a tax on all income trusts commencing in 2011, income trusts’ ability to raise new equity capital needed for growth has been significantly negatively affected. For income trusts that have had weak financial performance, such as the Fund, these negative impacts have been amplified.

(g) **Lack of Alternative Proposals.** Following the announcement on November 13, 2007 that the Trustees would conduct a strategic review process, the Fund has not received any expressions of interest from parties other than CFFI. CFFI has advised the Trustees that in its process of seeking partners for a going-private transaction, CFFI contacted numerous parties, including Canadian and U.S. financial sponsors, Canadian pension funds, and strategic players, however, only a limited number submitted proposals to CFFI. Only one strategic partner, Maruha Nichiro Holdings, a global seafood company that sees significant long term value in the assets, made a proposal that CFFI believed could be viewed as acceptable. Given its approximate 48% voting control of the Fund, CFFI is effectively able to veto any significant transaction requiring Unitholder approval, including a sale of all or substantially all the assets of the Fund. CFFI has consistently advised the Fund that it has no interest in selling its interest in the Fund or Clearwater, making a successful alternative proposal unlikely.

(h) **Ability to Seek and Respond to Superior Proposals.** Under the Transaction Agreement, the Trustees have reserved the ability to seek and to respond to proposals that may deliver greater value to the Minority Unitholders than the Proposed Transaction. In addition, the Trustees may support a superior proposal without becoming obligated to pay any termination or break fees.

The foregoing discussion of information and factors considered by the Trustees is not intended to be exhaustive. In addition, in reaching their determination and recommendation, the Trustees did not assign any relative or specific weight to the foregoing factors which were considered, and individual Trustees may have given different weight to different factors.

**Minority Unitholders should consider the Transaction carefully and come to their own conclusions as to acceptance or rejection of the Proposed Transaction.** Minority Unitholders who are in doubt as to how to respond should consult their own financial, legal and other professional advisors. **Minority Unitholders are advised that acceptance of the Proposed Transaction may have tax consequences and that they should consult their tax advisors.**

**BMO Capital Markets’ Valuation and Fairness Opinion**

The Trustees initially contacted BMO Capital Markets in November, 2007 regarding a potential engagement in connection with a strategic review process. Pursuant to the Engagement Agreement, BMO Capital Markets was formally retained by the Trustees for the limited purpose of reviewing the Fund’s strategic alternatives and to prepare, if requested, an independent formal valuation and a fairness opinion in respect of a possible transaction. Pursuant to the Engagement Agreement, the Trustees engaged BMO Capital Markets to prepare, under the supervision of the Trustees, a formal valuation of the Trust Units in accordance with MI 61-101 and to provide the Trustees with its opinion as to the fairness, from a financial point of view, of the Unit Redemption Price to be received by the Minority Unitholders pursuant to the Proposed Transaction.

BMO Capital Markets’ engagement provides for the payment by the Fund of a total fee of $650,000, reimbursement for reasonable out-of-pocket expenses, and customary indemnification for services to be rendered, including preparation and delivery of the Valuation and Fairness Opinion. No part of BMO Capital Markets’ fee under the Engagement Agreement is contingent upon the outcome of the Proposed Transaction or any other transaction.
**Credentials of BMO Capital Markets**

BMO Capital Markets is one of Canada’s largest investment banking firms, with operations in all facets of corporate and government finance, mergers and acquisitions, equity and fixed income sales and trading, investment research and investment management. BMO Capital Markets has been a financial advisor in a significant number of transactions throughout North America involving public companies in various industry sectors and has extensive experience in preparing valuations and fairness opinions.

**Relationship with Interested Parties**

In the Valuation and Fairness Opinion, BMO Capital Markets has advised that it is of the view that it is independent of all interested parties in the Proposed Transaction for the purposes of MI 61-101, and that none of BMO Capital Markets, the Bank of Montreal or any of their affiliated entities: (i) is an associated or affiliated entity or “issuer insider” (as such term is defined for the purposes of MI 61-101) of the Fund, the Purchaser Consortium or their respective associates or affiliates; (ii) is an advisor to the Purchaser Consortium in connection with the Proposed Transaction; (iii) is a manager or co-manager of a soliciting dealer group formed in respect of the Proposed Transaction; (iv) has a material financial incentive in respect of the conclusions reached in the Valuation and Fairness Opinion; (v) has a material financial interest in the completion of the Proposed Transaction; (vi) except as stated in the Valuation and Fairness Opinion under the heading “Independence of BMO Capital Markets”, during the 24 months before BMO Capital Markets was first contacted by the Trustees in respect of the Proposed Transaction, had a material involvement in an evaluation, appraisal or review of the financial condition of the Fund or CFFI or any of their respective affiliated entities, acted as a lead or co-lead underwriter of a distribution of securities of the Fund or any member of the Purchaser Consortium or any of their respective affiliated entities or had a material financial interest in any transaction involving the Fund or CFFI or any of their respective affiliated entities; or (vii) is a lead or co-lead lender or manager of a lending syndicate in respect of the Proposed Transaction or a lender of a material amount of indebtedness of the Fund or any member of the Purchaser Consortium or any of their respective affiliated entities.

BMO Capital Markets has advised that in the ordinary course of its business BMO Capital Markets or the Bank of Montreal, or any of their affiliated entities, may have extended or may extend loans, or may have provided or may provide other financial services to the Fund, the members of the Purchaser Consortium or their respective associates or affiliates. BMO Capital Markets has further advised that, other than as set out in the Valuation and Fairness Opinion, there are no understandings, agreements or commitments between BMO Capital Markets on the one hand, and the Fund, CFFI or any of their respective associates or affiliates on the other hand, with respect to any future business dealings.

In connection with the preparation of the Valuation and Fairness Opinion, BMO Capital Markets reviewed information provided by the Fund, Clearwater, CS ManPar and certain members of the Purchaser Consortium, undertook various procedures, met with Management, the Trustees and with representatives of CFFI, and conducted investigative exercises as more specifically described in the Valuation and Fairness Opinion (a copy of which is attached as Appendix “C” to this Circular).

BMO Capital Markets relied upon, and assumed the completeness, accuracy, and fair presentation of all financial and other information, data, advice, opinions, representations and other material obtained by it from public sources or provided by the Fund, Clearwater, CS Man Par, CFFI and their respective officers, associates, affiliates, consultants, advisors and representatives. The Valuation and Fairness Opinion is conditional upon the completeness, accuracy and fair presentation of such information. In accordance with the Engagement Letter, but subject to the exercise of its professional judgment, BMO Capital Markets has not attempted to verify independently the completeness, accuracy or fair presentation of such information. BMO Capital Markets has assumed that the forecasts, projections and budgets of the Fund provided to BMO Capital Markets and relied upon in its analyses have been reasonably prepared on a basis reflecting the best currently available estimates and judgments of Management as to matters covered thereby.
Opinion

The Valuation and Fairness Opinion states that, in the opinion of BMO Capital Markets, as of August 13, 2008, the fair market value range for the Trust Units is between $3.80 and $4.60 per Trust Unit and that the Unit Redemption Price of $4.50 per Trust Unit to be received by the Minority Unitholders pursuant to the Proposed Transaction is fair, from a financial point of view, to the Minority Unitholders.

The full text of the Valuation and Fairness Opinion, which sets forth, among other things, the assumptions, limitations on the scope of review undertaken by BMO Capital Markets and other matters, is attached as Appendix “C” to this Circular and includes a discussion of the valuation methodologies used by BMO Capital Markets. Unitholders are urged to read the Valuation and Fairness Opinion in its entirety. The summary of the Valuation and Fairness Opinion described in this Circular is qualified in its entirety by reference to the full text of the Valuation and Fairness Opinion. BMO Capital Markets provided the Valuation and Fairness Opinion solely for the information and assistance of the Trustees in connection with their consideration of the Proposed Transaction. The Valuation and Fairness Opinion is not a recommendation as to how Unitholders should vote with respect to the Unitholder Resolution.

The Trustees’ Fiduciary Duty

Notwithstanding the foregoing, nothing in the Transaction Agreement shall permit the Fund to terminate the Transaction Agreement other than in accordance with the provisions described under “Summary of the Transaction Agreement – Termination Events”, or limit in any way the obligation of the Fund to convene and hold the Unitholder Meeting and Debentureholders Meeting in accordance with the requirements of the Transaction Agreement unless the Transaction Agreement is terminated in accordance with the provisions described under “Summary of the Transaction Agreement – Termination Events”.

Prior to the Effective Time, the Fund shall obtain and, if the Fund is unable to, Acquisition LP shall cause Clearwater, prior to the Effective Time, to obtain fully paid directors’, officers’ and trustees’ liability coverage exclusively for the Fund’s existing directors’, officers’ and trustees’ which is non-cancellable by either the insurer or the insured for claims reporting or run-off and extended reporting period and claims reporting period of at least six years from and after the Effective Time with respect to any claim related to any period or time at or prior to the Effective Time from a reputable insurance carrier, and with terms, conditions and retentions that are no less advantageous to the Indemnified Persons than the coverage provided under the Fund’s existing policies with respect to any actual or alleged error, misstatement, misleading statement, act, omission, neglect, breach of duty or any matter claimed against a director, officer or trustee of any of the Clearwater Entities by reason of him or her serving in such capacity that existed or occurred at or prior to the Effective Time (including in connection with the approval or completion of the Transaction Agreement, the Proposed Transaction or the other transactions contemplated by the Transaction Agreement or arising out of or related to the Transaction Agreement and the transactions contemplated thereby). Termination Events

The Transaction Agreement may be terminated: (i) by the mutual written agreement of the Fund and Acquisition LP; or (ii) by either the Fund or Acquisition LP if: (a) the Effective Time shall not have occurred on or before the Outside Date, except that the right to terminate the Transaction Agreement under this provision shall not be available to any party whose failure to fulfill any of its obligations has been the cause of, or resulted in, the failure of the Effective Time to occur by such date; (b) after the date of the Transaction Agreement, there shall be enacted or made any Applicable Law (or any Applicable Law shall have been amended) that makes consummation of the Proposed Transaction illegal or otherwise prohibited or enjoins the Fund or any of its Subsidiaries or Acquisition LP from consummating the Proposed Transaction and such Applicable Law (if applicable) or enjoinder shall have become final and non-appealable; or (c) the Unitholder Approval shall not have been obtained at the Unitholder Meeting (including any adjournment or postponement thereof).

Termination by the Fund

The Fund may terminate the Transaction Agreement if a breach of any representation or warranty or failure to perform any covenant or agreement on the part of Acquisition LP set forth in the Transaction Agreement shall have occurred that would cause the conditions set forth under “Summary of the Transaction Agreement – Conditions Precedent to Completion of the Proposed Transaction – Mutual Conditions Precedent to Completion” or “Summary of the Transaction Agreement – Conditions Precedent to Completion of the Proposed Transaction – Conditions to Completion for the Benefit of the Fund” not to be satisfied, and such condition is incapable of being satisfied by the Outside Date; provided that the Fund is not then in breach of the Transaction Agreement so as to cause any of the conditions set forth under “Summary of the Transaction Agreement – Conditions Precedent to Completion of the Proposed Transaction – Mutual Conditions Precedent to Completion” or “Summary of the Transaction Agreement – Conditions Precedent to Completion of the Proposed Transaction – Conditions to Completion for the Benefit of Acquisition LP” not to be satisfied.
**Termination by Acquisition LP**

Acquisition LP may terminate the Transaction Agreement by providing written notice to the Fund if:

(a) a breach of any representation or warranty or failure to perform any covenant or agreement on the part of the Fund set forth in the Transaction Agreement shall have occurred that would cause the conditions set forth under “Summary of the Transaction Agreement – Conditions Precedent to Completion of the Proposed Transaction – Mutual Conditions Precedent to Completion” or “Summary of the Transaction Agreement – Conditions Precedent to Completion of the Proposed Transaction – Conditions to Completion for the Benefit of Acquisition LP” not to be satisfied, and such conditions are incapable of being satisfied by the Outside Date; provided that Acquisition LP is not then in breach of the Transaction Agreement so as to cause any of the conditions set forth under “Summary of the Transaction Agreement – Conditions Precedent to Completion of the Proposed Transaction – Mutual Conditions Precedent to Completion” or “Summary of the Transaction Agreement – Conditions Precedent to Completion of the Proposed Transaction – Conditions to Completion for the Benefit of the Fund” not to be satisfied;

(b) prior to obtaining Unitholder Approval, the Trustees withdraw, amend, modify or qualify, in a manner adverse to Acquisition LP, the approval or recommendation of the Trustees of the Proposed Transaction, or shall fail to reaffirm such approval or recommendation within two Business Days of receipt of any written request to do so by Acquisition LP; or

(c) a Material Adverse Effect exists or has occurred following the date of the Transaction Agreement;

**Effect of Termination**

If the Transaction Agreement is terminated pursuant to any of the provisions described under “Summary of the Transaction Agreement – Termination Events”, the Transaction Agreement shall become void and of no effect without liability of any party (or any shareholder, partner, trustee, director, officer, employee, agent, consultant or representative of such party) to any other party to the Transaction Agreement, except that the provisions described under “Expenses of the Proposed Transaction” and certain indemnification obligations of Acquisition LP shall survive any such termination. In addition, Acquisition LP would be required to reimburse the Fund for expenses incurred in respect of the Transaction Agreement and the Proposed Transaction if the Transaction Agreement were terminated under any of the circumstances described below under “Summary of the Transaction Agreement – Transaction Expenses”.

**Transaction Expenses**

Pursuant to the Transaction Agreement, the Fund and Acquisition LP shall each pay their respective legal, financial advisory and accounting costs and expenses incurred in connection with the preparation, execution and delivery of the Transaction Agreement and all documents and instruments executed or prepared pursuant to the Transaction Agreement and any other costs and expenses whatsoever and howsoever incurred, except that Acquisition LP shall pay, among others, (i) the reasonable out-of-pocket expenses of BMO Capital Markets in respect of the Valuation and Fairness Opinion, and (ii) the costs of any dealer or proxy solicitation service engaged in connection with the solicitation of proxies for the Unitholder Meeting and/or Debentureholder Meeting.

If the Proposed Transaction is not completed and the Transaction Agreement is terminated as a result of a breach of the Transaction Agreement by Acquisition LP or a breach of any of the undertakings delivered by members of the Purchaser Consortium dated the date of the Transaction Agreement, Acquisition LP shall reimburse the Fund in respect of any costs and expenses incurred in respect of the Transaction Agreement or the Proposed Transaction (which costs and expenses shall include, without limitation, any prepayment penalties, breakage fees, expenses or other fees incurred in respect of (i) the withdrawal of notices of prepayment sent in respect of the Existing Credit Facilities and the Notes; and (ii) the transactions contemplated by the Debt Financing Commitment Letters.
SUMMARY OF OTHER MATERIAL DOCUMENTS RELATED TO THE PROPOSED TRANSACTION

Debt Commitment Letters

In connection with the Proposed Transaction, Clearwater has received a Debt Commitment Letter dated August 13, 2008 from GE Canada pursuant to which GE Canada has committed to provide Clearwater with a $75,000,000 revolving credit facility, secured by a first priority lien in all cash equivalents, accounts, inventory and certain other current assets of Clearwater and by a second priority lien over substantially all other assets of Clearwater. The revolving facility will be fully and unconditionally guaranteed by certain subsidiaries of Clearwater and the holders of equity interests of Clearwater will each provide limited recourse guarantees to the extent of their equity interest. The revolving facility bears interest and Clearwater may borrow, repay and re-borrow available funds.

Clearwater has also received a Debt Commitment Letter dated August 13, 2008 for senior secured loans consisting of four long-term tranches from a syndicate of lenders that include John Hancock Life Insurance Company, GE Canada, Hartford Investment Management Company, United of Omaha Mutual Life Insurance Company and Glitnir. The total amounts issued under the term facility will not exceed the aggregate of $50,000,000 and $US65,000,000 and will be guaranteed by certain subsidiaries of Clearwater and Acquisition LP will provide a limited recourse guarantee to the extent of its interest. The term facility will rank senior to the revolving credit facility with respect to substantially all assets of Clearwater and the guarantors that are not subject to a first priority lien under the revolving facility, which assets will be subject to a second ranking security interest. The loans bear interest and are subject to fees at levels believed by the Purchaser Consortium to be customary for credit facilities of this type.

Funds advanced on the Closing Date will be used to fund the Proposed Transaction, the refinancing of the Existing Credit Facilities and other indebtedness of the Clearwater Entities, and to fund certain fees and expenses in connection with the Proposed Transaction and the financing. Loans made after the Closing Date will be used for Clearwater’s working capital and other general commercial purposes. Each of the Debt Commitment Letters is subject to a number of conditions, including execution of definitive loan agreements. Due diligence of the Clearwater Entities is not a condition of these financing commitments.

Keep-Well Undertaking

Maruha Nichiro Holdings, the indirect owner of 100% of the issued and outstanding capital stock of Maruha, has delivered an undertaking dated August 14, 2008 to the Fund and the other members of the Purchaser Consortium regarding Maruha (the “Keep-Well Undertaking”) pursuant to which Maruha Nichiro Holdings has agreed to

- preserve and maintain (a) its corporate existence and (b) all of its licences, rights, privileges and franchises necessary or desirable for (i) the maintenance of its existence and (ii) the fulfillment of its obligations under the agreements to which it is a party in connection with the transactions contemplated by the Proposed Transaction;

- provide corporate and economic support to Maruha to the extent necessary to permit Maruha to satisfy all of its obligations arising under or pursuant to Applicable Law or any agreement, instrument, document, indenture, contract or other arrangement to which it is a party. Without limiting the generality of the foregoing, Maruha Nichiro Holdings agrees to provide sufficient monies in immediately available funds to Maruha when and as necessary to permit Maruha to satisfy all such obligations when due, including to provide to Maruha on or before the Closing Date a minimum of $76,843,750 and to cause Maruha to invest such amount in limited partnership units of Acquisition LP on or before the Closing Date in accordance with its obligations under the relevant agreements; and

- to make commercially reasonable efforts to ensure that Maruha shall not be subject to any insolvency proceeding and shall not be liquidated, dissolved or wound up until the earlier of (a) termination of the Transaction Agreement or (b) Closing.
Each of the obligations of Maruha Nichiro Holdings incurred in, or as a result of, the Keep-Well Undertaking will terminate and no longer be effective from and after the earlier of (i) termination of the Transaction Agreement for any reason, or (ii) Closing.

**Undertaking of Certain Members of the Purchaser Consortium**

Each of the members of the Purchaser Consortium (other than Maruha) have executed and delivered an undertaking dated August 14, 2008 to the Fund pursuant to which such members have confirmed that they are each members of the Purchaser Consortium, that they collectively hold a majority of the limited partnership interests of Acquisition LP and, subject to the terms and conditions of the Transaction Agreement, that each such member shall:

- vote or cause to be voted any Units and any partnership interests in Clearwater now or subsequently owned by such member, or over which such member now or subsequently exercises control or direction, in favour of the Unitholder Resolution at the Unitholder Meeting;
- take or cause to be taken all actions as are within such member’s power to control so as to complete the Proposed Transaction; and
- use its best efforts to cause Acquisition LP to comply with its obligations under the Transaction Agreement.

**Guarantee of CFFI**

CFFI has provided a guarantee dated August 14, 2008 to the Fund pursuant to which CFFI has unconditionally and irrevocably guaranteed the prompt payment and performance of the obligations of Acquisition LP to reimburse the Clearwater Entities in respect of any costs and expenses incurred in respect of the Transaction Agreement or the Proposed Transaction (which costs and expenses shall include, without limitation, any prepayment penalties, breakage fees, expenses or other fees incurred in respect of, (i) the withdrawal of notices of prepayment sent in respect of the Existing Credit Facilities and the Notes, and (ii) the transactions contemplated by the Debt Financing Commitment Letters) if the Proposed Transaction is not completed and the Transaction Agreement is terminated as a result of the breach of the Transaction Agreement by Acquisition LP or a breach of any of the undertakings delivered by members of the Purchaser Consortium dated August 14, 2008.

**THE UNIT REDEMPTION**

The provisions of the Unitholder Resolution, if adopted in accordance with the Declaration of Trust, will permit the Trustees to make the amendments to the Declaration of Trust and the Fund Material Documents, which are necessary in order to facilitate the Proposed Transaction and the Unit Redemption. The full text of the amendments are set forth in Exhibit “A” to the Unitholder Resolution, which is attached to this Circular as Appendix “A”.

If Unitholder Approval is obtained and the Proposed Transaction is completed, Minority Unitholders will not be required to take any action in order to receive payment of the Unit Redemption Price for their Trust Units. On the Closing Date, CDS & Co., the sole registered holder of the Trust Units, will surrender the global certificates representing the Trust Units owned by Minority Unitholders to the Transfer Agent in exchange for payment of the aggregate Unit Redemption Price. As promptly as practicable following the Closing Date, CDS will transfer, directly or indirectly, the applicable portion of the aggregate Unit Redemption Price, subject to any applicable withholding tax, to the broker or other intermediary through which each Minority Unitholder holds their Trust Units.

**THE DEBENTURE REDEMPTION**

The provisions of the Debentureholder Resolution, if adopted in accordance with the Debenture Trust Indenture, will permit the Trustees to make the amendments to the Debenture Trust Indenture, which are necessary in order to complete the Debenture Redemption. The full text of the amendments are set forth in Exhibit “A” to the Debentureholder Resolution, which is attached to this Circular as Appendix “B”.
If the Debentureholder Approval is obtained and the Proposed Transaction is completed, Debentureholders will not be required to take any action in order to receive payment of the Debenture Redemption Price for their Debentures. On the Closing Date, CDS & Co., the sole registered holder of the Debentures will surrender the global certificates representing the Debentures to the Debenture Trustee in exchange for payment of the aggregate Debenture Redemption Price plus accrued and unpaid interest to but excluding the Closing Date, subject to any applicable withholding tax. As promptly as practicable following the Closing Date, CDS will transfer, directly or indirectly, the applicable portion of the aggregate Debenture Redemption Price together with any accrued and unpaid interest to but excluding the Closing Date, subject to any applicable withholding tax, to the broker or other intermediary through which each Debentureholder holds their Debentures.

**POSITION OF THE DEBENTUREHOLDERS IF THE DEBENTUREHOLDER APPROVAL IS NOT OBTAINED AND THE PROPOSED TRANSACTION IS COMPLETED**

The Debentureholder Approval is a condition to the completion of the Proposed Transaction that may be waived at the option of Acquisition LP.

The volume weighted average trading price for the Series 1 Debentures and the Series 2 Debentures on the TSX during the period of 20 trading days prior to the announcement of the Proposed Transaction was $88.18 and $79.78, respectively, which is 88.18% and 79.78% of the principal amount of the Series 1 Debentures and Series 2 Debentures, respectively. The Debenture Redemption Price to be received by Debentureholders pursuant to the Debenture Redemption is 101% of the principal amount of the Series 1 Debentures and Series 2 Debentures. Accordingly, the Debenture Redemption Price represents a 15% and 27% premium over the volume weighted average trading price for the Series 1 Debentures and the Series 2 Debentures, respectively, on the TSX during the period of 20 trading days prior to the announcement of the Proposed Transaction.

Each of the Series 1 Debentures and Series 2 Debentures are convertible into Trust Units at the option of the Debentureholders. Currently, the Conversion Price for the Series 1 Debentures is $12.25 such that approximately 81.6327 Trust Units would be issuable for each $1,000 principal amount of Series 1 Debentures converted. The current Conversion Price for the Series 2 Debentures is $5.90 such that approximately 169.4915 Trust Units would be issuable for each $1000 principal amount of Series 2 Debentures converted. Accordingly, if a Debentureholder were to convert $1,000 principal amount of Series 1 Debentures or Series 2 Debentures, as applicable, into Trust Units prior to the Effective Time, such Debentureholder would receive, on completion of the Proposed Transaction, aggregate consideration of $367.35, in the case of Series 1 Debentures, or $762.71, in the case of Series 2 Debentures, which in each case is less than the Debenture Redemption Price of $1,010 that such Debentureholder would receive pursuant to the Debenture Redemption if such holder did not convert such Debentures and if the Debentureholder Approval is obtained and the Proposed Transaction is completed.

The Debentures are not currently redeemable at the option of the Fund or the Debentureholders. If the Debentureholder Approval is not obtained and the Proposed Transaction is completed, the Debentures will continue to accrue interest in accordance with the terms of the Debenture Trust Indenture. If the Debentureholder Approval is not obtained, following completion of the Proposed Transaction, the Fund may be required to make an offer to purchase all of the outstanding Debentures at a redemption price that would be equal to the Debenture Redemption Price.

Following the Proposed Transaction, any Debentureholder who wishes to convert all or a portion of such holder’s Debentures into Trust Units, would be entitled to receive and would be required to accept, upon conversion, in lieu of the number of Trust Units then sought to be acquired by such holder pursuant to the conversion of such holder’s Debentures, the consideration that such holder would have been entitled to receive pursuant to the Proposed Transaction had such holder held such number of Trust Units sought to be acquired at the Effective Time.

He currently holds 4,908,960 Trust Units and will contribute 4,462,249 Trust Units to Acquisition LP in exchange for an interest in Acquisition LP, with the balance of 446,711 Trust Units to be redeemed for the Unit Redemption Price pursuant to the Unit Redemption along with the Minority Unitholders. Mickey MacDonald is the brother of Colin E. MacDonald.

**PRINCIPAL LEGAL MATTERS**

**Regulatory Matters**

The Proposed Transaction is conditional upon the filing of all required notifications, the receipt of all consents and approvals and certain other regulatory requirements to the extent necessary as determined by the parties, acting reasonably.

**Canadian Securities Law Matters**

The Fund is a reporting issuer (or the equivalent) under applicable Canadian securities legislation in each of the provinces and territories of Canada and is, among other things, subject to applicable securities laws of Ontario and Quebec, including MI 61-101. MI 61-101 is intended to regulate certain transactions to ensure the protection and fair treatment of minority securityholders.

The Proposed Transaction constitutes a “business combination” under MI 61-101 because it may involve the termination of certain Unitholders’ interest in the Fund without such Unitholders’ consent. MI 61-101 provides that, unless exempted, a reporting issuer proposing to carry out a business combination is required to obtain a formal valuation of the affected securities from a qualified independent valuator and to provide the holders of the affected securities with a summary of such valuation. For the purposes of the Proposed Transaction, the Units are considered “affected securities” within the meaning of MI 61-101. See “Review and Approval of the Proposed Transaction – BMO Capital Markets’ Valuation and Fairness Opinion” and see Appendix “C” to this Circular for a copy of the Valuation and Fairness Opinion.

MI 61-101 also requires that, in addition to any other required securityholder approval, in order to complete a business combination, the approval of a simple majority of the votes cast by Minority Unitholders must be obtained. In relation to the Proposed Transaction and for the purposes of this Circular, the Minority Unitholders of the Fund include all Unitholders other than:

- any members of the Purchaser Consortium;
- any other “interested party” within the meaning of MI 61-101;
- any “related party” (within the meaning of MI 61-101) of any “interested party” unless the related party meets that description solely in its capacity as a director or senior officer of one or more persons that are neither “interested parties” nor “issuer insiders” of the Fund; and
- any person or company acting jointly or in concert with any of the foregoing.
Stock Exchange De-Listing and Reporting Issuer Status

After submission of the requisite notices and applications, it is intended that the Trust Units and, if appropriate, the Debentures, will be de-listed from the TSX on or about the Closing Date, which is expected to occur in early October, 2008. In addition, following completion of the Proposed Transaction, the Fund intends to make an application to cease to be a “reporting issuer”.

CERTAIN CANADIAN FEDERAL INCOME TAX CONSIDERATIONS

In the opinion of Goodmans LLP, counsel to the Fund, the following is a summary of the principal Canadian federal income tax considerations under the Tax Act of the Proposed Transaction, including the Unit Redemption and the Debenture Redemption, that are generally applicable to a Unitholder or a Debentureholder, as the case may be, who disposes of Trust Units and/or Debentures to the Fund for cash pursuant to the Unit Redemption and/or the Debenture Redemption, as applicable. This summary assumes that, for purposes of the Tax Act, the Unitholder or the Debentureholder holds Trust Units or Debentures, as the case may be, as capital property, and deals at arm’s length and is not affiliated with the Fund. Trust Units and Debentures generally will be considered capital property to a Unitholder or Debentureholder, as the case may be, unless the holder holds such Trust Units or Debentures in the course of carrying on a business, or such holder has acquired them in one or more transactions considered to be an adventure or concern in the nature of trade.

Certain Unitholders or Debentureholders whose Trust Units or Debentures, as the case may be, might not otherwise qualify as capital property may be eligible to make an irrevocable election in accordance with subsection 39(4) of the Tax Act to have the Trust Units and Debentures and every other “Canadian security” (as defined in the Tax Act) owned by such holders deemed to be capital property in the taxation year of the election and all subsequent taxation years.

For the purposes of this summary, counsel has assumed that the Fund qualifies as a “mutual fund trust” as defined in the Tax Act, on the date hereof, and will continue to so qualify throughout the period during which Unitholders or Debentureholders hold any Trust Units or Debentures, as applicable. If the Fund does not qualify or ceases to qualify as a “mutual fund trust” during such period, then the income tax considerations described below would, in some respects, be materially different.

This summary is not applicable to: (a) a Unitholder or Debentureholder that is a “financial institution” (as defined in the Tax Act) for purposes of the “mark-to-market” rules contained in the Tax Act; (b) a Unitholder or Debentureholder that is a “specified financial institution” (as defined in the Tax Act); (c) a Unitholder or Debentureholder an interest in which is a “tax shelter investment” (as defined in the Tax Act); or (d) a Unitholder or Debentureholder that has made a “functional currency” reporting election under the Tax Act. Any such Unitholder or Debentureholder should consult its own tax advisors with respect to the tax consequences of the Proposed Transaction including the Unit Redemption and the Debenture Redemption.

This summary is based upon the provisions of the Tax Act in force as of the date hereof, counsel’s understanding of the current published administrative and assessing policies of the CRA and all specific proposals to amend the Tax Act that have been publicly announced by or on behalf of the Minister of Finance (Canada) prior to the date hereof (the “Proposed Amendments”) and on the assumption that all such Proposed Amendments shall be enacted in the form proposed. However, there can be no assurance that the Proposed Amendments will be enacted in their current form or at all.

This summary is of a general nature only, is not exhaustive of all possible Canadian federal income tax considerations and, except for the Proposed Amendments, does not take into account or anticipate any changes in law or administrative or assessing practice whether by legislative, governmental, administrative or judicial action, nor does it take into account provincial, territorial or foreign tax considerations, which may differ significantly from those discussed herein. The income and other tax consequences of disposing of Units or Debentures will vary depending on the holder’s particular circumstances including the provinces and territories in which the holder
resides or carries on business. This summary is not intended to be legal or tax advice to any particular Unitholder or Debentureholder. Consequently, such holders should consult their own tax advisors with respect to their particular circumstances.

Taxation of the Fund

Management has advised counsel that the Proposed Transaction, including the Unit Redemption and the Debenture Redemption, should not cause the Fund to realize income (or loss) for tax purposes. Accordingly, the Fund should generally not be liable for income tax under Part I of the Tax Act in respect of the Proposed Transaction.

Taxation of Holders Resident in Canada

The following summary is generally applicable to a Unitholder or Debentureholder, as the case may be, who, for purposes of the Tax Act, and at all relevant times is, or is deemed to be, a resident of Canada.

Unit Redemption

The redemption of Trust Units held by a Unitholder upon the Unit Redemption will be treated as a disposition by the Unitholder of such Trust Units. On the disposition of a Trust Unit on the Unit Redemption, a Unitholder will realize a capital gain (or capital loss) equal to the amount by which the Unitholder’s proceeds of disposition exceed (or are less than) the aggregate of the Unitholder’s adjusted cost base of the Trust Unit and any reasonable costs of disposition. Any capital gain or capital loss realized on the disposition of a Trust Unit will be subject to the general rules relating to the taxation of capital gains and capital losses described below.

Debenture Redemption

The redemption of Debentures held by a Debentureholder upon the Debenture Redemption will be treated as a disposition by the Debentureholder of such Debentures. On the disposition of a Debenture on the Debenture Redemption, a Debentureholder will be considered to have disposed of the Debenture for proceeds of disposition equal to the amount received by the holder (other than an amount received or deemed to be received on account of interest) on such redemption. The Debentureholder will realize a capital gain (or capital loss) equal to the amount by which the Debentureholder’s proceeds of disposition exceed (or are less than) the aggregate of the Debentureholder’s adjusted cost base of the Debenture and any reasonable costs of disposition. Any capital gain or capital loss realized upon the disposition of a Debenture will be subject to the general rules relating to the taxation of capital gains and capital losses described below.

In connection with the disposition of a Debenture on the Debenture Redemption, Debentureholders will receive a payment of accrued and unpaid interest to but excluding the Closing Date. In addition, the 1% premium paid by the Fund to a Debentureholder upon the Debenture Redemption will generally be deemed to be interest received at that time by such Debentureholder to the extent that such premium can reasonably be considered to relate to, and does not exceed the value on the date of the Debenture Redemption, of the interest that would have been paid or payable by the Fund on the Debentures for taxation years of the Fund ending after the date of the Debenture Redemption. In connection with the disposition of a Debenture on the Debenture Redemption, Debentureholders will receive a payment of accrued and unpaid interest to but excluding the Closing Date. Such interest (or deemed interest) will be included in computing the Debentureholder’s income, except to the extent such amount was otherwise included in the holder’s income, and will be excluded in computing the Debentureholder’s proceeds of disposition of the Debenture. A holder that throughout the relevant taxation year is a “Canadian-controlled private corporation”, as defined in the Tax Act, is liable to pay an additional refundable tax of 6⅔% on investment income, which generally includes interest income.
Capital Gains and Capital Losses

One-half of any capital gain (a “taxable capital gain”) realized by a Unitholder or Debentureholder will be included in the Unitholder’s and/or Debentureholder’s income as a taxable capital gain. One-half of any capital loss (an “allowable capital loss”) realized by a Unitholder or Debentureholder may generally be deducted only from taxable capital gains realized or considered to be realized by the Unitholder or Debentureholder, subject to and in accordance with the provisions of the Tax Act. Allowable capital losses not deducted in the taxation year in which they are realized may be carried back and deducted in any of the three preceding years or carried forward and deducted in any following year against taxable capital gains realized in such years, to the extent and under the circumstances specified in the Tax Act.

A Unitholder or Debentureholder that is a “Canadian-controlled private corporation” (as defined in the Tax Act) may be liable to pay an additional refundable tax of $\frac{6}{3}\%$ on its “aggregate investment income” for the year, which will include an amount in respect of taxable capital gains.

Where a Unitholder that is a corporation or trust (other than a mutual fund trust) disposes of a Trust Unit, the Unitholder’s capital loss from the disposition will generally be reduced by the amount of dividends previously designated by the Fund to the Unitholder except to the extent that a loss on a previous disposition of a Trust Unit has been reduced by those dividends. Analogous rules apply where a corporation or trust (other than a mutual fund trust) is a member of a partnership that disposes of Trust Units. Unitholders to whom these rules may apply should consult their own tax advisors.

Alternative Minimum Tax

Individuals and certain trusts and estates may be subject to alternative minimum tax under the Tax Act. In general terms, capital gains realized on the disposition of Trust Units and/or Debentures may increase the Unitholder’s and/or Debentureholder’s liability for alternative minimum tax.

Taxation of Holders Not Resident in Canada

The following summary is generally applicable to a Unitholder or Debentureholder who, for purposes of the Tax Act and any applicable income tax convention, and at all relevant times, (i) is not and has not been a resident or deemed to be a resident of Canada; and (ii) does not use or hold, and is not deemed to use or hold, Trust Units or Debentures, as the case may be, in connection with carrying on a business in Canada (each a “Non-Resident Unitholder” or “Non-Resident Debentureholder”). Special rules, which are not discussed in this summary, may apply to a non-resident that is an insurer carrying on business in Canada and elsewhere.

Unit Redemption

A Non-Resident Unitholder generally will not be subject to tax under the Tax Act in respect of a capital gain, or entitled to deduct any capital loss, realized upon the redemption of Units unless the Trust Units represent “taxable Canadian property” to such Non-Resident Unitholder and the Non-Resident Unitholder is not entitled to an exemption pursuant to the provisions of an applicable income tax treaty or convention. Trust Units owned by a Non-Resident Unitholder generally will not be considered to be “taxable Canadian property” unless: (i) at any time during the 60-month period immediately preceding the Unit Redemption, not less than 25% of the issued Trust Units were owned by that Non-Resident Unitholder and/or persons with whom that Non-Resident Unitholder did not deal at arm’s length; or (ii) the Trust Units are otherwise deemed to be “taxable Canadian property” under the Tax Act. In the event that the Trust Units constitute “taxable Canadian property” in the hands of a Non-Resident Unitholder and the capital gain, if any, realized upon a disposition of such Trust Units is not exempt from Canadian tax by virtue of an applicable income tax treaty or convention, the general rules relating to the taxation of capital gains and losses described above under “Taxation of Holders Resident in Canada – Capital Gains and Capital Losses” will apply. Non-Resident Unitholders for whom Trust Units are “taxable Canadian property” should consult their own tax advisors with respect to the tax consequences of the disposition of Trust Units upon the Unit Redemption.
Debenture Redemption

A Non-Resident Debentureholder generally will not be subject to tax under the Tax Act in respect of a capital gain, or entitled to deduct any capital loss, realized upon the redemption of Debentures unless the debentures constitute “taxable Canadian property” and the Non-Resident Debentureholder is not entitled to an exemption pursuant to the provisions of an applicable tax treaty or convention. The Debentures are considered to be an interest or option in respect of Trust Units for purposes of the definition of “taxable Canadian property”. Debentures owned by a Non-Resident Debentureholder generally will not be considered to be “taxable Canadian property” unless: (i) at any time during the 60-month period immediately preceding the Debenture Redemption, not less than 25% of the issued Units were owned by that Non-Resident Debentureholder and/or persons with whom that Non-Resident Debentureholder did not deal at arm’s length; or (ii) the Debentures are otherwise deemed to be “taxable Canadian property” under the Tax Act. In the event that the Debentures constitute “taxable Canadian property” in the hands of a Non-Resident Debentureholder and the capital gain, if any, realized upon a disposition of such Debentures is not exempt from Canadian tax by virtue of an applicable income tax treaty or convention, the general rules relating to the taxation of capital gains and losses described above under “Taxation of Holders Resident in Canada – Capital Gains and Capital Losses” will apply. Non-Resident Debentureholders for whom Debentures are “taxable Canadian property” should consult their own tax advisors with respect to the tax consequences of the disposition of Debentures upon the Debenture Redemption.

Interest paid or credited, or deemed to be paid or credited, to a Non-Resident Debentureholder will generally not be subject to Canadian withholding tax.

NOTES:
(1) The information as to Trust Units, Special Trust Units and Debentures beneficially owned, directly or indirectly, including by associates or affiliates, not being within the knowledge of the Fund has been furnished by the respective Trustees, directors, officers, managers or 10% holders, as applicable, individually.

See also “Summary of the Transaction Agreement – Protection of the Trustees and the Fund” for interests of Trustees in the Proposed Transaction.

Commitments to Acquire Securities of the Fund

To the knowledge of the Fund, after reasonable inquiry, neither the Fund nor any of the Unitholders or Debentureholders listed in the table above has any commitment to acquire any securities of the Fund other than pursuant to the Proposed Transaction.

Approval of the Unitholder Resolution and Debentureholder Resolution

To the knowledge of the Fund, after reasonable inquiry, each of the Unitholders and Debentureholders listed in the table above intends to vote all of their Units and Debentures in favour of the Unitholder Resolution and Debentureholder Resolution, respectively.

Benefits of the Proposed Transaction

Other than as disclosed in this Circular, none of the Unitholders or Debentureholders listed in the table above will receive any direct or indirect benefit from the completion of the Proposed Transaction that is not available to all Unitholders and Debentureholders, as applicable.

In addition to their usual Trustees’ fees, each of the three Trustees will receive a fee of $25,000 plus $1,000 for each meeting held for their work in connection with the strategic review of the Fund, including their consideration of the Proposed Transaction.

PREVIOUS PURCHASES AND SALES OF SECURITIES OF THE FUND

Previous Purchases

During the 12 months preceding the date of this Circular, the Fund repurchased and cancelled 1,443,200 Units at a weighted average purchase price of $4.70 per Unit, pursuant to a normal course issuer bid, which repurchases occurred principally between September, 2007 and December, 2007. The Fund undertook such repurchases because the Trustees believed that the repurchases represented an attractive opportunity to realize additional Unitholder value and that the repurchases were an appropriate and desirable use of the Fund’s available resources.
During the 12 months preceding the date of this Circular, the Fund repurchased and cancelled $1,000,000 principal amount of Series 1 Debentures and $3,652,000 principal amount of Series 2 Debentures, at a weighted average price of 98.28% of the principal amount of the Series 1 Debentures and 92.48% of the principal amount of the Series 2 Debentures, pursuant to normal course issuer bids. The repurchases of the Series 1 Debentures occurred during August, 2007 and September, 2007 and the repurchases of the Series 2 Debentures occurred during November, 2007 and December, 2007. The Fund undertook such repurchases because the Trustees believed that such repurchases were an appropriate use of available cash and in the best interests of the Fund and its Unitholders.

Previous Sales
Since August 22, 2003, the Fund has distributed the following securities:

- On September 17, 2003, the Fund issued 848,962 Trust Units at a price of $12.28 per Trust Unit for gross proceeds of $10,425,253. The net proceeds of the issuance were used to finance the acquisition of an interest in the Fund’s Argentine subsidiary, Glacier Pesquera S.A.
- On June 15, 2004, the Fund issued $50,000,000 aggregate principal amount of Series 1 Debentures. The net proceeds of the offering were used to reduce borrowings under Clearwater’s revolving credit facilities.
- On March 9, 2007, the Fund issued $43,500,000 aggregate principal amount of Series 2 Debentures. The net proceeds of the offering were used to enhance Clearwater’s capital structure and to provide flexibility to allow Clearwater to pursue potential accretive acquisitions.
- On March 12, 2007, the Fund issued an addition $4,542,000 aggregate principal amount of Series 2 Debentures pursuant to the exercise of an over-allotment option granted in connection with the issuance of $43,500,000 Series 2 Debentures.

MATERIAL CHANGES IN THE AFFAIRS OF THE FUND
Except as described in this Circular, including under “Summary of the Transaction Agreement”, the Trustees are not currently aware of any plans or proposals for any material change in the affairs of the Fund, other than those that have been publicly disclosed.

RISK FACTORS
The following risk factors should be carefully considered by Unitholders and Debentureholders in evaluating whether to approve the Unitholder Resolution and Debentureholder Resolution, respectively.

Risks Relating to the Proposed Transaction
There can be no certainty that all conditions precedent to the Proposed Transaction will be satisfied or waived, or the timing of their satisfaction or waiver. Failure to complete the Proposed Transaction could negatively impact the price of the Units and Debentures.

The completion of the Proposed Transaction is subject to a number of conditions precedent, some of which are outside the control of the Fund, including receipt of certain regulatory approvals, the Unitholder Approval and the Debentureholder Approval. A number of the conditions to completion of the Proposed Transaction in the Transaction Agreement, including certain financial conditions relating to the Fund and its subsidiaries, are also conditions of the financing commitments contained in the Debt Financing Commitment Letters and, accordingly, may not be waived by Acquisition LP without the consent of the other parties to the Debt Financing Commitment Letters. There can be no certainty, nor can the Fund provide any assurance, that these conditions will be satisfied or, if satisfied, when they will be satisfied. If the Proposed Transaction is not completed, the market price of the Units and Debentures may be adversely affected.
Uncertainty surrounding the Proposed Transaction could adversely affect the Fund’s retention of customers, suppliers and personnel and could negatively impact the Fund’s future business operations.

Because the Proposed Transaction is dependent upon the satisfaction of certain conditions, its completion is subject to uncertainty. In response to this uncertainty, the Fund’s customers and suppliers may delay or defer decisions concerning the Fund. Any delay or deferral of those decisions by customers or suppliers could have a Material Adverse Effect on the business and operations of the Fund, regardless of whether the Proposed Transaction is ultimately completed. Similarly, current and prospective employees of the Fund may experience uncertainty about their future roles with the Fund until the Purchaser Consortium’s strategies with respect to the Fund are announced and executed. This may adversely affect the Fund’s ability to attract or retain key management, sales and marketing personnel in the period until the Proposed Transaction is completed.

The Transaction Agreement may be terminated by Acquisition LP or the Fund in certain circumstances.

Each of Acquisition LP and the Fund has the right, in certain circumstances, to terminate the Transaction Agreement. Accordingly, there can be no certainty, nor can the Fund provide any assurance, that the Transaction Agreement will not be terminated by either of Acquisition LP or the Fund prior to the completion of the Proposed Transaction. For example, Acquisition LP has the right, in certain circumstances, to terminate the Transaction Agreement in the event of a change that has a Material Adverse Effect in respect of the Fund. Although a Material Adverse Effect excludes certain events that are beyond the control of the Fund, in each case that does not disproportionately adversely affect the Clearwater Entities, there can be no assurance that a change having a Material Adverse Effect on the Fund will not occur prior to the Effective Time, in which case Acquisition LP could elect to terminate the Transaction Agreement and the Proposed Transaction would not proceed. In addition, Acquisition LP may terminate the Transaction Agreement in the event that any of the representations and warranties of the Fund are not true and correct as of the Effective Time, unless such failure would not reasonably be expected to have a “material adverse effect”. If, for any reason, the Transaction Agreement is terminated, the market price of the Units and the Debentures may be adversely affected.

If the Fund is unable to complete the Proposed Transaction or if completion of the Proposed Transaction is delayed, there could be an adverse effect on the Fund’s business, financial condition, operating results and the price of its Units and Debentures.

The completion of the Proposed Transaction is subject to the satisfaction of numerous closing conditions, including, among others, receipt of certain regulatory approvals, the Unitholder Approval and the Debentureholder Approval. A substantial delay in obtaining satisfactory approvals and consents and/or the imposition of unfavourable terms or conditions in the approvals or consents to be obtained could have an adverse effect on the business, financial condition or results of operations of the Fund or could result in the termination of the Transaction Agreement. If (a) Unitholders choose not to approve the Unitholder Resolution, (b) either series of Debentureholders chooses not to approve the Debentureholder Resolution, (c) the Fund otherwise fails to satisfy, or fails to obtain a waiver of the satisfaction of, the closing conditions to the Proposed Transaction and the Proposed Transaction is not completed, (d) a Material Adverse Effect has occurred that results in the termination of the Transaction Agreement, or (e) any legal proceeding results in enjoining the transactions contemplated by the Transaction Agreement, the Fund could be subject to various adverse consequences, including that the Fund would remain liable for significant costs relating to the Proposed Transaction, including, among others, legal, accounting and financial printing expenses. If the Transaction Agreement is terminated other than as a result of a breach of the Transaction Agreement by Acquisition LP, the Fund’s ability to recover its costs and expenses in connection with the Transaction Agreement or Proposed Transaction will be limited.

Risks Relating to the Fund

Whether or not the Proposed Transaction is completed, the Fund will continue to face many of the risks that it currently faces with respect to its business and affairs. For a comprehensive list of the risk factors affecting the Fund and its business, please refer to the Fund’s annual information form dated March 28,
2008 as well as the management’s discussion and analysis of financial condition and results of operations for the year ended December 31, 2007 and the three month period ended June 30, 2008, which risk factors are specifically incorporated by reference in this Circular. A copy of each of these documents can be obtained free of charge on SEDAR at www.sedar.com.

To the Board of Trustees of Clearwater Seafoods Income Fund (the “Fund”):

BMO Nesbitt Burns Inc. (“BMO Capital Markets”) understands that Clearwater Fine Foods Inc. (“CFFI”), Maruha Nichiro (Canada), Inc. (“Maruha”), Clarke Inc. (“Clarke”), Glitnir Banki hf (“Glitnir”) and Mickey MacDonald (“MacDonald”) (collectively, the “Purchaser Consortium”), have proposed to the Board of Trustees of the Fund (the “Trustees”) a “going private transaction” (the “Proposed Transaction”) pursuant to which, among other things: (i) CS Acquisition Limited Partnership (“Acquisition LP”), a partnership owned by the Purchaser Consortium, will acquire all of the partnership units of Clearwater Seafoods Limited Partnership (“Clearwater”), the entity that operates the business of the Fund; and (ii) the Fund will immediately use the net proceeds received from the investment by Acquisition LP in Clearwater to acquire all of the Trust Units (as defined below) by way of redemption which will result in the Minority Unitholders (as defined below) receiving cash consideration (the “Consideration”) in the amount of $4.50 per trust unit of the Fund (“Trust Unit”).

“Minority Unitholders” means all unitholders of the Fund other than (i) members of the Purchaser Consortium; (ii) any other such interested party (as such term is defined in the Canadian Securities Administrators’ Multilateral Instrument 61-101 (the “Rules”)); (iii) any related party (as such term is defined in the Rules) of any interested party; and (iv) any person or company acting jointly or in concert under the Rules with any of the foregoing.

BMO Capital Markets understands the following with respect to the holdings of the Fund and the Proposed Transaction:

- CFFI controls CS ManPar Inc. (“CS ManPar”), which is the general managing partner of Clearwater, and holds (i) 23,381,217 Class B units of Clearwater which are exchangeable into 23,381,217 Trust Units, (ii) 1,275,205 Trust Units and (iii) 23,381,217 special trust units of the Fund (“Special Trust Units”). The Special Trust Units held by CFFI entitle it only to a voting interest in the Fund equivalent to the voting rights it would have if it exchanged its Class B units of Clearwater for Trust Units;

- through its combined holdings of Trust Units and Special Trust Units, CFFI currently has a voting interest of approximately 48.23% in the Fund; and

- collectively, the Purchaser Consortium holds 41.84% of the Trust Units and 23,381,217 Special Trust Units, thereby giving the Purchaser Consortium a voting interest of approximately 68% in the Fund on a fully diluted basis.
BMO Capital Markets understands that the Proposed Transaction will be subject to certain conditions, including, among others: (i) the approval by at least two-thirds of the holders (together, the “Debentureholders”) of the June 2004 and March 2007 convertible debentures (the “Debentures”) to amend their respective governing indentures to allow the Fund to redeem the Debentures for 101% of their face amount plus accrued and unpaid interest up to but excluding the date upon which the Proposed Transaction is expected to close, and (ii) the approval of the Proposed Transaction by at least: (A) two-thirds of the votes cast in respect of approving the Proposed Transaction by holders of the Trust Units and Special Trust Units (collectively the “Unitholders”) present in person or by proxy at a special meeting of Unitholders to be held to approve the Proposed Transaction (the “Special Meeting”); and (B) a majority of the votes cast in respect of approving the Proposed Transaction by the Minority Unitholders present in person or by proxy at the Special Meeting.

BMO Capital Markets understands that additional details of the Proposed Transaction will be provided in a management information circular (the “Circular”) to be mailed to the holders of Trust Units on or about August 29, 2008. BMO Capital Markets also understands that the Proposed Transaction and the Circular will be prepared by the Fund in compliance with applicable laws, regulations, policies and rules (including the Rules). BMO Capital Markets understands that each Trustee is an “independent director” for the purposes of the Rules and, as a result, the Trustees did not consider the formation of an “independent committee” (as such term is defined in the Rules) necessary.

The Trustees have retained BMO Capital Markets to prepare and deliver to the Trustees a formal valuation (the “Valuation”) of the Trust Units in accordance with the requirements of the Rules and to provide its opinion (the “Fairness Opinion”) as to the fairness, from a financial point of view, of the Consideration to be received by the Minority Unitholders pursuant to the Proposed Transaction.

**Scallops**

Scallop sales were approximately $111 million in 2007, representing 37% of consolidated sales. Clearwater holds (directly and indirectly) approximately 49% of the Total Allowable Catch (“TAC”) in the Atlantic Canada offshore sea scallop fishery.

Clearwater’s scallop business includes participation in the Argentine scallop fishery through its 80% owned subsidiary which owns two of the four outstanding licences and operates two vessels.
**Lobster**

Lobster sales in 2007 were approximately $76 million, representing 25% of consolidated sales. Clearwater holds all eight Canadian offshore fishing licences. In 2007, Clearwater purchased approximately 6.6 million pounds of lobster from independent inshore harvesters (approximately 7% of the total Atlantic Canadian inshore catch).

**Clams**

In 2007, Clearwater had clam sales of $46 million, representing 15% of consolidated sales. Clearwater owns 100% of the TAC for Arctic surf clams. The licences also permit the harvesting of northern propeller clams and Greenland cockles.

**Coldwater Shrimp**

Clearwater’s sales of coldwater shrimp in 2007 totaled $46 million through its rights (direct and indirect) to approximately 20% of the offshore coldwater shrimp fishery in Atlantic Canada and 15% of Clearwater’s consolidated sales.

**Crab**

Clearwater sales of crab were $16 million in 2007, representing 5% of consolidated sales. Primary species include snow crab and Jonah crab.

**Groundfish and other**

Clearwater’s sales from harvesting of redfish, haddock, halibut, cod and turbot in Atlantic Canada were $9 million in 2007, representing 3% of consolidated sales.

**Regulation of Licences**

In Canada, the harvesting of seafood in the waters off Atlantic Canada is primarily regulated by the Canadian Department of Fisheries and Oceans through the Fisheries Act (Canada) and the Atlantic Fishery Regulations (1985) made under that act. These regulations provide for the registration of vessels and enterprises and for the issuance of licences to catch specified species of seafood.

The harvesting of scallops in Argentina is regulated by the National Federal Fishery Law (1998) and Resolution 150/96 of the Secretary of Agriculture, Livestock, Fishery and Food. These laws provide for the registration of vessels and enterprises and for the issuance of licences to catch specified species of seafood.

VALUATION OF THE TRUST UNITS

Definition of Fair Market Value

For the purposes of the Valuation, fair market value means the highest price, expressed in terms of money or money’s worth, available in an open and unrestricted market between informed and prudent parties, each acting at arm’s length, where neither party is under any compulsion to act.

In accordance with the Rules, BMO Capital Markets has made no downward adjustment to the fair market value of the Trust Units to reflect the liquidity of the Trust Units, the effect of a transaction pursuant to which the Fund would acquire all of the Trust Units not owned by the members of the Purchaser Consortium or the fact that the Trust Units held by individuals do not form part of a controlling interest. A valuation prepared on the foregoing basis is referred to as an “en bloc” valuation.

Approach to Value

The Valuation is based upon techniques and assumptions that BMO Capital Markets considered appropriate in the circumstances for the purposes of arriving at an opinion as to the range of fair market values of the Trust Units. The fair market value of the Trust Units was analysed on a going concern basis and is expressed on a per Trust Unit basis.

Valuation Methodologies and Analyses

For the purposes of determining the fair market value of the Trust Units, BMO Capital Markets considered the following methodologies and analysed:
• comparable trading approach;
• discounted cash flow ("DCF") approach; and
• precedent transactions approach.

BMO Capital Markets considered the comparable trading approach and the DCF approach to be of greater relevance than the precedent transactions approach. While there are no comparable companies that operate with Clearwater’s exact product focus and strategy, seafood companies and food sector income funds have been affected by similar drivers, making the comparison of such businesses’ trading metrics relevant. The reliability of the DCF is related directly to Management’s ability to accurately project long-term cash flows. Management’s forecasting ability is limited by the level of uncertainty inherent in the nature of Clearwater’s business and past performance, as well as by the various economic factors (especially foreign exchange rates and input costs). The precedent transactions reviewed were of similar businesses; however, differences in business size and mix, market dynamics and economic environment at the time at which these transactions occurred, among other factors, make the comparison to Clearwater more challenging.

Comparable Trading Approach

BMO Capital Markets considered the comparable trading approach as an appropriate valuation methodology. BMO Capital Markets identified and reviewed two groups of publicly traded comparable entities. These included five seafood companies and four food sector income funds. Using equity research analyst consensus estimates for all entities identified, BMO Capital Markets computed and reviewed a number of financial and operating metrics, including, among others, enterprise value, expected EBITDA and related growth rates and business mix. BMO Capital Markets compared Clearwater to the comparable public entities identified with respect to the foregoing metrics. A summary of the nine entities BMO Capital Markets considered to be most comparable to Clearwater is presented below:

While none of the entities reviewed was considered directly comparable to Clearwater, BMO Capital Markets relied upon its professional judgment in analyzing the comparable entities and selecting the most appropriate public trading multiples, before making any adjustment to reflect an “en bloc” valuation of the Trust Units. BMO Capital Markets considered Enterprise Value (“EV”)/EBITDA for the fiscal years ending 2008 and 2009 to be the most appropriate trading multiples to evaluate Clearwater and, based on the above, selected the following multiple ranges:

<table>
<thead>
<tr>
<th>Selected Multiple Range</th>

The following is a summary of the fair market value of the Trust Units resulting from the selection of trading valuation multiples above, before making any adjustment to reflect the “en bloc” valuation of the Trust Units:

\[
\begin{array}{cccc}
\text{(C$, millions, except per unit amounts)} & \text{Benchmark Low} & \text{High} & \text{Value Range Low} & \text{High} \\
\text{EV / EBITDA} & $43.6^{(1)} & 7.5x & 8.5x & $326.6 & $370.2 \\
& $55.7 & 6.5x & 7.5x & $361.9 & $417.6 \\

\text{Equity value per Trust Unit}^{(3)} & & & & $2.31 & $3.28 \\
\end{array}
\]

1. Includes normalized contribution related to the operation of a newly commissioned clam vessel and revised joint venture agreement for shrimp.
   Management believes that if the clam vessel and revised JV agreement had been operational for all of 2008, the shrimp and clam businesses would have contributed incremental EBITDA of $2.5 million and $3.9 million, respectively, in 2008.

2. Net obligations includes all debt, including convertible debentures at redemption price under a change of control scenario, as well as derivative contract liabilities and cash.

3. Based on 51.1 million Trust Units outstanding, on a fully diluted basis.

Market trading prices generally do not reflect “en bloc” values. To adjust for en bloc value, BMO Capital Markets considered and reviewed control premiums paid in precedent Canadian public income fund transactions. For the purposes of this analysis, premium was defined as the amount (expressed in percentage terms) by which the price paid per trust unit under the precedent transaction exceeded the closing price of the trust units immediately prior to either the announcement of the transaction or the announcement of a strategic review/possible sale transaction process being undertaken.

Based on the control premiums observed in the precedent transactions, as described above, BMO Capital Markets selected and applied a premium of 30% to the selected equity trading value of the Trust Units to determine an “en bloc” equity value per Trust Unit.

\[
\begin{array}{cccc}
\text{Equity value per Trust Unit}^{(1)} & \$2.31 & \$3.28 \\
\text{Change of control premium} & 30% & 30% \\
\text{En bloc equity value per Trust Unit}^{(1)} & \$3.01 & \$4.27 \\
\end{array}
\]

1. Based on 51.1 million Trust Units outstanding, on a fully diluted basis.
Discounted Cash Flow Approach

BMO Capital Markets considered the DCF approach in determining the fair market value of the Trust Units. The DCF approach reflects the growth prospects and risks inherent in the Clearwater business by taking into account the amount, timing and relative certainty of projected unlevered free cash flows expected to be generated by Clearwater. The DCF approach requires that certain assumptions be made regarding, among other things, Clearwater’s business and past performance, future unlevered free cash flows, discount rates and terminal values. The possibility that some of the assumptions will prove to be inaccurate, and such inaccuracies may be material, is one factor involved in the determination of the discount rates to be used in establishing a range of values. BMO Capital Markets’ DCF approach involved discounting to a present value Clearwater’s projected unlevered after-tax free cash flows from July 2008 until December 31, 2012 and the terminal value determined as of December 31, 2012.

Management Forecast

As a basis for the development of projected future cash flows, BMO Capital Markets received Management’s 2008 Revised Budget and the Management Forecast. After a review of the assumptions supporting the Management Forecast and discussions with Management regarding the assumptions, BMO Capital Markets concluded that the 2008 Revised Budget and the Management Forecast formed an appropriate basis for the DCF analysis.

Assumptions

BMO Capital Markets’ DCF analysis is based on a number of important operating assumptions developed by Management, a summary of which is provided below. In addition, BMO Capital Markets made certain economic assumptions in the DCF analysis.

Foreign Exchange:

Clearwater has significant sales to customers in the U.S., Europe and Japan. The Management Forecast assumes the current spot rates for 2008 and forward consensus estimates for the 2009 to 2012 period. The table below sets out the foreign exchange rate forecasts for the key sales currencies used in the DCF analysis:

Net Sales – Volume and Price Changes:

BMO Capital Markets reviewed Canadian and U.S. inflation forecasts, including those available for food and specifically protein or seafood, and determined that Management’s assumptions with respect to seafood product annual price increases (as discussed below) were reasonable.

Sea Scallops:

Clearwater processes and packages sea scallops at its facility located in Lockport, Nova Scotia. TAC levels for sea scallops have generally been stable in recent years. The 2008 Revised Budget...
assumes TAC levels will increase by 12% in 2008 to 7,500 metric tons ("MT") and the Management Forecast assumes these TAC levels with remain constant during 2009. For the 2010 to 2012 period, TAC levels are forecast to decline by 7% to 7,000 MT in 2010 and remain constant at 7,000 MT for the remainder of the forecast period based on the natural cycle for sea scallops. During the decline stage of the cycle, Clearwater expects to procure sea scallops from other harvesters to maintain a constant supply to its customers.

The market for Canadian sea scallops has expanded to include Europe and Asia, which is expected to support stable longer-term prices. Management has assumed that prices will grow at 2% annually for the 2009-2012 period.

**Argentine Scallops:**

Since 1996, Clearwater has participated in the Argentine scallop fishery, where it operates through its 80% owned subsidiary. The primary market for Argentine scallops is France and other European countries. These scallops are smaller in size compared to Canadian sea scallops and, as a result, are processed mechanically on board harvesting vessels. These sea scallops have found a ready market in the recipe dish processing sector with a robust market in France. Management believes that the growing interest in the value-added segment of the food industry will continue to create new products to make seafood more convenient to consumers. These trends would support continued demand for Argentine scallops.

In 2007, Clearwater experienced price competition in the European market from the other participant in the Argentine scallop fishery. Clearwater chose to maintain higher prices which resulted in an accumulation of inventory. The inventory build-up in 2007 contributed to the higher estimate of sales volumes for 2008. Sales volumes are expected to decline by 20% to 11.1 million pounds in 2009. Management believes that sales volumes will then increase to approximately 12.1 million pounds in 2010 and will remain at that level for 2011 and 2012.

Due to the inventory build-up of Argentine scallops discussed above, Management expects overall prices to be weaker in 2008 compared to 2007 across all geographic markets with the largest year over year decline in Europe of approximately 19%. For 2009-2012, prices are forecast to grow 2% annually in all markets.

**Lobster:**

The Lobster segment is comprised of two principal products: live lobster and processed lobster.

Clearwater holds all eight offshore lobster licences in Canada. In addition to lobster harvested under the licences, Clearwater also purchases lobster from inshore harvesters. In 2007, Clearwater purchased 6.6 million pounds of lobster from inshore harvesters, representing approximately 7% of the total Atlantic Canadian inshore catch.

Management expects sales volumes for live lobster to be consistent with historical levels at approximately 6.2 million pounds annually, with prices expected to decrease by 7% in 2008, followed by a 2% increase in the 2009 to 2012 period.

Management expects to recognize significant volume growth in its processed lobster product. Sales are expected to grow from approximately 1.0 million pounds in 2008 to 1.6 million by 2012. Prices are forecasted to increase by 2% per annum in the 2009 to 2012 period.
Clams:

The clams segment consists of three primary products: frozen clams (including Arctic surf and cockles); canned clams; and masago (approximately 93%, 2% and 5% respectively, of clam sales in the 2008 Revised Budget). Management believes that once catching capacity is restored with the newly converted vessel, Clearwater can develop sufficient demand to continue growing the clam business. The 2008 Revised Budget assumes a sales volume of approximately 9.5 million pounds; however, these volumes are expected to increase by approximately 31% in 2009 to 13.8 million pounds and then remain relatively stable through the remainder of the Management Forecast.

Management expects prices (in local currencies) to increase by 2% in 2008 and by 2% for each year in the Management Forecast (2009-2012).

Coldwater Shrimp:

Clearwater’s shrimp business consists of two types of product. Clearwater holds, directly and indirectly, 19.6% of the TAC in the offshore coldwater shrimp fishery in Atlantic Canada. In addition, Clearwater is a 75% partner in a coldwater shrimp processing plant in St. Anthony, Newfoundland. This plant produces cooked and peeled (“C&P”) shrimp.

Coldwater Shrimp – After conversion of one of the shrimp vessels into a clam vessel in 2008, Clearwater entered into a revised joint venture agreement with its current partner whereby Clearwater contributed its shrimp and turbot quotas and the joint venture partner contributed a frozen-at-sea vessel and the existing business. The 2008 Revised Budget and the Management Forecast reflect Clearwater’s share of projected contribution.

Cooked & Peeled – Management expects volumes for C&P shrimp to increase by 14% in 2008 and then increase at approximately 6% per annum for the 2009-2012 period. C&P prices are expected to increase by 10% in 2008, reflecting continued price improvements which began in 2007. The Management Forecast assumes annual price increases of 2% for 2009-2012.

Other Products:

Clearwater also sells smaller amounts of other products. The volume and price assumptions for these products are detailed below:

Jonah Crab – Management expects stable volume and an annual decline in prices of 7% in 2008 and an annual recovery in volume of 2% in the 2009-2012 period. Prices for Jonah crab are forecast to grow at 2% per annum for the 2009-2012 period.

Snow Crab – Snow crab volumes are expected to increase in 2008 and the Management Forecast assumes growth in volume of 5% per annum for the 2009-2012 period as higher demand is expected. Prices for snow crab are forecast to grow at 2% per annum for the 2009-2012 period.

Groundfish and Other – Volumes for Groundfish and other smaller species are expected to decline as Clearwater expects to process fewer of such non-core species.

Cost of Goods Sold and Operating Expenses:

For all products, both variable and fixed costs are forecast to increase in line with inflation, which Management has assumed will be 2% per annum.
Capital Expenditures:

Capital expenditures consist primarily of expenses related to vessel maintenance and replacement. Historically, these annual amounts have varied significantly. Management believes that $3 million is an appropriate amount for annual vessel maintenance expenditures. Amounts in excess of the annual maintenance component relate to periodic refit and replacement costs. The refit and replacement costs vary by type and age of vessel.

Management has advised BMO Capital Markets that $10 million (in current dollars) is an appropriate amount to assume for total capital expenditures in the terminal year forecast; adjusted for inflation, the capital expenditures in the terminal year are expected to be approximately $10.9 million.

Net Non-Cash Working Capital:

Forecasted net working capital was based on historical relationships between sales and Clearwater’s accounts receivable, inventories and accounts payable.

Income Taxes and Tax Losses:

Cash income taxes are forecast based on calculations of taxable income and the tax rates applicable to Clearwater’s Canadian and Argentine subsidiaries for the 2008-2012 period.

Clearwater has significant capital cost allowances available resulting from high undepreciated capital costs of depreciable property related to recent investments in its fleet. Clearwater does not have any tax loss carry-forwards. Management has indicated that approximately 50% of Clearwater’s earnings in Argentina are taxable at a rate of 35%.

The table below sets out the income tax rates provided by Management and used in the DCF analysis:

Unlevered After-Tax Free Cash Flows

For the purposes of deriving projected unlevered after-tax free cash flows for use in the DCF analysis, BMO Capital Markets reviewed the 2008 Revised Budget and the Management Forecast and relevant underlying assumptions and compared volumes, prices and costs to those achieved or incurred in previous years. BMO Capital Markets also examined the implied annual revenue growth, and contribution and EBITDA margins in relation to prior years. Based on such review, BMO Capital Markets observed that, while individual assumptions underlying the Management Forecast do not appear unreasonable, the Management Forecast shows contribution and EBITDA margins reaching levels in 2010, 2011 and 2012 not achieved in any of the previous five fiscal years (2003-2007 inclusive).

Management’s forecasting ability is limited by the level of uncertainty inherent in the nature of Clearwater’s business and past performance, as well as in the various economic factors. Specifically, risk factors beyond Management’s control are not limited to, but may include changes in foreign exchange rates, price of inputs, allowable catch levels and issued licences for given species, seasonality and weather, consumer tastes as well as changes in the competitive landscape.

BMO Capital Markets has no reason to believe that the assumptions underlying the 2008 Revised Budget and the Management Forecast do not accurately reflect Management’s view of the prospects of Clearwater over the forecast period. Therefore, BMO Capital Markets’ DCF analysis incorporated six months of the 2008 Revised Budget and the Management Forecast (January 1, 2009 to December 31, 2012), followed by a terminal value calculation based on the projected terminal year cash flows.
The following is a summary of the unlevered after-tax free cash flow projections used in the DCF analysis:

**Discount Rates**

Projected unlevered after-tax free cash flows for Clearwater were discounted based on its estimated weighted average cost of capital (“WACC”). The WACC was calculated based upon Clearwater’s after-tax cost of debt and equity, weighted based upon an assumed optimal capital structure. The assumed optimal capital structure was determined based upon a review of the current and historical capital structures of comparable companies and the risks inherent in Clearwater’s business and in the North American food industry generally. The cost of debt for Clearwater was calculated based on the risk-free rate of return and an appropriate borrowing spread to reflect credit risk at the assumed optimal capital structure. BMO Capital Markets used the capital asset pricing model (“CAPM”) approach to determine the appropriate cost of equity. The CAPM approach calculates the cost of equity with reference to the risk-free rate of return, the risk of equity relative to the market (“beta”) and a market equity risk premium. BMO Capital Markets reviewed a range of unlevered betas for Clearwater and a select group of comparable companies that have similar risks in order to select the appropriate unlevered beta for Clearwater. The selected unlevered beta was re-levered using the assumed optimal capital structure and then used to calculate the cost of equity.
The cost of debt and cost of equity assumptions used by BMO Capital Markets in estimating the WACC for the Canadian operations were as follows:

**Cost of Debt**
- Risk-free rate (10-yr Government of Canada Bond) ................................. 3.6%
- Borrowing spread ................................................................. 4.5%
- Pre-tax cost of debt ............................................................ 8.1%
- Tax rate ......................................................................... 31.0%
- After-tax cost of debt ...................................................... 5.6%

**Cost of Equity**
- Risk-free rate (10-yr Government of Canada Bond) ................................. 3.6%
- Equity risk premium ................................................................ 5.0%
- Levered beta ..................................................................... 0.94
- Size premium ..................................................................... 4.0%
- After-tax cost of equity ..................................................... 12.3%

**WACC - Canada**
- Optimal capital structure (% debt) ............................................ 35.0%
- WACC ........................................................................... 9.9%

BMO also separately estimated the WACC for Clearwater’s Argentine scallop subsidiary (80% owned) to adjust for the higher risk associated with the geographic location of this operation.

The cost assumptions used by BMO Capital Markets in estimating the WACC for Clearwater’s Argentine subsidiary were as follows:

**Cost of Debt**
- Risk-free rate (10-yr U.S. Government Bond) ................................. 3.9%
- Borrowing spread ................................................................. 14.2%
- Pre-tax cost of debt ............................................................ 18.1%
- Tax rate ......................................................................... 35.0%
- After-tax cost of debt ...................................................... 11.8%

**Cost of Equity**
- Risk-free rate (10-yr U.S. Government Bond) ................................. 3.9%
- Equity risk premium ................................................................ 5.0%
- Levered beta ..................................................................... 0.93
- Size premium ..................................................................... 4.0%
- Country risk premium ....................................................... 9.7%
- After-tax cost of equity ..................................................... 22.2%

**WACC - Argentina**
- Optimal capital structure (% debt) ............................................ 35.0%
- WACC ........................................................................... 18.6%

Based upon the foregoing and taking into account sensitivity analyses on the variables discussed above and the assumptions used in the 2008 Revised Budget and the Management Forecast, BMO Capital Markets determined the appropriate WACC for Clearwater to be in the range of 9.5% to 10.5% for the Canadian operations and 18.0% to 19.0% for the Argentine subsidiary.
Terminal Value

BMO Capital Markets developed a terminal EV at the end of the forecast period by selecting a contribution margin of 30% to the 2012 forecast, which is consistent with the average contribution margin realized over the past five fiscal years (2003-2007 inclusive). The perpetual growth rate range used to calculate the terminal values was 1.5%-2.5%. In selecting the range, BMO Capital Markets’ assessment focused on the risk and growth prospects for Clearwater beyond the terminal year and the long-term outlook for the seafood industry past the terminal year.

Benefits to the Purchaser Consortium of Acquiring the Trust Units Held by the Minority Unitholders

In arriving at its opinion as to the fair market value of the Trust Units, BMO Capital Markets reviewed and considered whether any distinct material value would accrue to the Purchaser Consortium as a result of completing the Proposed Transaction. BMO Capital Markets did not identify any synergy value that should be assigned to the Trust Units other than approximately $1 million of annual pre-tax general and administrative cost savings related to public Fund and other corporate expense savings, including one-time costs of $0.5 million already incurred in 2008 related to the Proposed Transaction which have been factored into BMO Capital Markets’ DCF analysis.

Precedent Transactions Approach

BMO Capital Markets also considered the precedent transactions approach and reviewed precedent transactions involving entities in the seafood harvesting and processing industry which were broadly comparable and for which there was sufficient public information to derive relevant multiples. Specifically, certain transactions in North America, Europe and Asia were reviewed.

BMO Capital Markets identified and reviewed 11 transactions within the seafood industry. For all transactions identified, BMO Capital Markets computed and reviewed available financial and operating metrics, including, among others, revenue, EBITDA and EBITDA margins. BMO Capital Markets compared Clearwater to the target entities with respect to the foregoing metrics. A summary of the transactions reviewed is presented below:

Average 8.3x

1. Multiple is the midpoint of 6.0x - 7.0x the average of the trailing three-year contributed EBITDA as disclosed in Del Monte Foods Company's press release dated June, 2008
Given differences in the business size and mix, geographic location, market dynamics and economic environment at the time of each transaction, growth prospects and other factors inherent in the precedent transactions identified above, including the fact that there have been very few recent transactions, BMO Capital Markets did not consider specific precedent transactions to be directly or reasonably comparable to the Proposed Transaction and, as a consequence, did not rely on this approach.

VALUATION SUMMARY

1. Includes change of control premium of 30%.

In arriving at its opinion as to the fair market value of the Trust Units, BMO Capital Markets did not attribute any particular weight to each valuation approach, but rather made qualitative judgments based upon its experience in rendering such opinions and on circumstances prevailing as to the significance and relevance of each valuation approach.

VALUATION CONCLUSION

Based upon and subject to the foregoing, including such other matters as considered relevant, BMO Capital Markets is of the opinion that, as of August 13, 2008, the fair market value of the Trust Units is in the range of $3.80 to $4.60 per Trust Unit.

FAIRNESS OPINION

In considering the fairness, from a financial point of view, of the Consideration to be received by the Minority Unitholders pursuant to the Proposed Transaction, BMO Capital Markets reviewed, considered and relied upon or carried out, among other things, the following:

- a comparison of the value of the Consideration to be received by the Minority Unitholders pursuant to the Proposed Transaction to the fair market value range of the Trust Units determined in the Valuation;
- a comparison of the premium to be received by the Minority Unitholders pursuant to the Proposed Transaction to premiums paid in other income fund transactions;
- discussions with CFFI and its financial advisors regarding the process undertaken to identify potential partners for the Proposed Transaction and third party written expressions of interest received by CFFI;
- an analysis of the trading liquidity of the Trust Units; and
- such other information, investigations and analyses considered necessary or appropriate in the circumstances.
Comparison of the Consideration to the Fair Market Value of the Trust Units

Under the terms of the Proposed Transaction, the Consideration to be received by the Minority Unitholders is $4.50 per Trust Unit, which is within the range of fair market value of the Trust Units as of August 13, 2008, as determined by BMO Capital Markets in the Valuation.

Comparable Transaction Premiums

BMO Capital Markets considered and reviewed take-over premiums paid in precedent Canadian public income fund transactions. Based on the take-over premiums paid in the reviewed transactions, BMO Capital Markets selected a premium of 30% to the equity trading value of the Trust Units as a comparable benchmark. The Consideration of $4.50 per Trust Unit represents a 32% premium over the 20-day volume weighted average trading price of the Trust Units. BMO Capital Markets notes that the above premium implied by the Proposed Transaction is above the average of the premiums of the comparable sample set.

Expressions of Interest from Third Parties

CFFI has represented to BMO Capital Markets that, in connection with its search for a partner to effect the Proposed Transaction, written expressions of interest were received from a limited number of parties other than Maruha and that these expressions of interest attributed a value to Unitholders of less than $4.50 per Trust Unit.

Liquidity of the Units

Over the last 12 months, approximately nine million Trust Units have traded on the TSX, representing approximately 47% of the public float. The Proposed Transaction will provide Minority Unitholders the ability to liquidate larger holdings of Trust Units than they might otherwise be able to realize in the absence of the Proposed Transaction.

FAIRNESS OPINION CONCLUSION

Based upon and subject to the foregoing and such other matters as we considered relevant, BMO Capital Markets is of the opinion that, as of August 13, 2008, the Consideration to be received by the Minority Unitholders pursuant to the Proposed Transaction is fair, from a financial point of view, to the Minority Unitholders.

Yours very truly,

(Signed) BMO NESBITT BURNS INC.
