HARVESTING AND PROCESSING

Caught in the pristine waters of the Canadian North Atlantic, Clearwater sources its lobster from eco-certified inshore and offshore fisheries. Clearwater's Raw Frozen Claw and Knuckle Lobster Meat is produced using a specialized high-pressure extraction system. This process detaches the raw lobster meat from the shell and is then quick frozen within half an hour, ensuring a premium "live" lobster taste and texture.

FOOD SAFETY AND QUALITY

Food safety and quality assurance programs, including CFIA registration onboard Clearwater vessels and BRCGS certification within processing facilities ensure our customers receive only the highest-quality, consistent and food-safe products.
