# RAW FROZEN SHELL-ON LOBSTER TAILS

## WHY CLEARWATER?

- Fast and efficient worldwide distribution and delivery
- Wild-harvested from sustainable and Marine Stewardship Council (MSC) certified fisheries
- Consistent year-round supply and availability

## HARVESTING AND PROCESSING

Caught in the pristine waters of the Canadian North Atlantic, Clearwater sources and harvests its lobster from eco-certified inshore and offshore fisheries.

Clearwater's Raw Frozen Shell-on Lobster Tails are produced using a specialized high-pressure extraction system. Cooking with raw lobster meat maximizes taste, providing an excellent alternative to live lobster.

## PACKAGING FORMATS

4-5oz tails  
32 – 40 tails per case

## FEATURES & BENEFITS

- **Convenience:** prepares and presents the same as live lobster
- **Quality:** High Pressure (HP) processed for improved texture & taste
- **Heightened flavor:** cooking with raw meat maximizes lobster flavor versus using a pre-cooked lobster product
- **Frozen storage:** vacuum packed for optimal freshness
- **100% natural:** no chemicals or additives

## FOOD SAFETY AND QUALITY

Food safety and quality assurance programs, including CFIA registration onboard Clearwater vessels and BRCS certification within processing facilities ensure our customers receive only the highest-quality, consistent and food-safe products.

## SUSTAINABILITY

Clearwater Lobsters are wild-caught from well-managed and healthy lobster fisheries around Atlantic Canada. Available in Marine Stewardship Council (MSC) certified formats.
